#### Northwest Pipeline Corporation; Notice of Request Under Blanket Authorization

November 5, 1997.

Take notice that on October 28, 1997, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84108, filed a request with the Commission in Docket No. CP98-052-000, pursuant to Sections 157.205, and 157.211 of the Commission's Regulations under the Natural Gas Act (NGA) for authorization to modify existing facilities at its Walker Hollow Meter Station in Uintah County, Utah to more efficiently accommodate existing deliveries of natural gas to Citation Oil & Gas Corp. At the Walker Hollow Delivery point, authorized in blanket certificate issued in Docket No. CP82-433-000, all as more fully set forth in the request on file with the Commission and open to public inspection.

Northwest proposes to modify the Walker Hollow Meter Station by installing 50 percent restricted trip plates in the two existing 1-inch regulators and by installing a new 2-inch regulator with 1/4-inch trip plate upstream of the two existing regulators to more accurately measure the low peak hourly flow rate of natural gas through the meter station. Northwest states that as a result of these modifications the maximum design capacity of the meter station will decrease from 4,128 Dth per day (at 65 psig) to approximately 408 Dth per day at a constant delivery pressure of 100 psig.

Northwest further states that the cost of the proposed facility modification at the Walker Hollow Meter Station is estimated to be approximately \$1,500.

Any person or the Commission's staff may, within 45 days after the Commission has issued this notice, file pursuant to Rule 214 of the Commission's Procedural Rules (18 CFR 385.214) a motion to intervene or notice
