- i. *Comment Date:* December 2, 1997.
- j. *Description of Proposed Action:* The licensee requests an extension of the 20-year term of the project license. The current term expires February 28, 2001. The requested extension would cause the license to expire on December 31, 2014.

The licensee states that, in setting the license term for 20 years, the Commission erroneously relied on precedent for projects which operated prior to receiving licenses. The licensee further states that the project will not support the cost of relicensing (the licensee must file a relicensing application in February 1999) and that the present 20-year term is insufficient for it to recover the cost of developing the project.
