BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER97-4603-000]

Boston Edison Company; Notice of Filing

November 17, 1997.

Take notice that on October 24, 1997, Boston Edison Company tendered for filing additional information to its September 15, 1997, filing in the above-referenced docket.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before November 28, 1997. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

Lois D. Cashell,
Secretary.

Federal Energy Regulatory Commission

[Docket No. CP98-86-000]

Columbia Gas Transmission Corporation; Notice of Application

November 17, 1997.

Take notice that on November 12, 1997, Columbia Gas Transmission Corporation (Columbia), 1700 MacCorkle Avenue, S.E., Charleston, West Virginia 25314-1599, filed an abbreviated application in Docket No. CP98-86-000, pursuant to Section 7(c) of the Natural Gas Act, for a certificate of public convenience and necessity authorizing Columbia to refunctionalize approximately 105.19 miles of gas pipeline and appurtenances from gathering to transmission, and approximately 1.20 miles of pipeline from gathering to storage, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Columbia proposes to refunctionalize its Miley and Trumbull Systems. The Miley System is located in Holmes County, Ohio, and consists of approximately 28.39 miles of pipeline and appurtenances. Columbia proposes to refunctionalize 27.19 miles of Miley System pipeline (primarily 8, 10 and 12-inch diameter pipe) from gathering to transmission, and the remaining 1.20 miles of 3-inch diameter pipeline from gathering to storage. The Trumbull System is located in Trumbull, Mahoning, and Geauga Counties, Ohio, and consists of approximately 78.00 miles of pipeline (primarily 10 and 12-inch diameter pipe). Columbia proposes to refunctionalize all of this system from gathering to transmission.

Columbia states that it is not proposing any construction in connection with the proposed refunctionalization of these facilities, and that the refunctionalization will not alter the service being provided to any of Columbia's existing customers. Columbia adds that the subject facilities are situated between facilities being sold and facilities being retained by Columbia; thus, the refunctionalization will avoid the potential assessment (by Columbia) of a gathering charge.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1997, file with the Federal Energy Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and
