POLICY JUSTIFICATIONGreece - CH-47D CHINOOK Helicopters

The Government of Greece has requested a possible sale of seven CH-47D CHINOOK helicopters with 28 M60 and eight M2 machine guns, chaff, radar warning receiver, three spare turbine engines, ammunition, spare and repair parts, support equipment, publications and technical data, communications equipment, maintenance, personnel training and training equipment, U.S. Government Quality Assurance Team, field service representatives, contractor engineering and technical support services, preparation of aircraft for shipment, and other related elements of logistics support. The estimated cost is \$376 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Greece and enhancing standardization and interoperability with U.S. forces.

These helicopters will provide the Greek armed forces an improved capability to transport personnel and cargo for both military and humanitarian assistance purposes. They will be provided to Greece in accordance with and subject to the limitations on use and transfer of the Arms Export Control Act, as embodied in the terms of sale. This proposed sale will not adversely affect either the military balance in the region or U.S. efforts to encourage a negotiated settlement of the Cyprus question.

The principal contractors will be Boeing Defense and Space Group, Philadelphia, and Allied Signal Aerospace Incorporated, Torrance, California. One or more proposed offset agreements may be related to this proposed sale.

Implementation of this proposed sale will require the assignment of a Quality Assurance Team for two weeks to support delivery of the helicopters. Two contractor representatives will be required for one year and may remain an additional year.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

THE SECRETARY OF STATE

This certification will be made part of the notification to the Congress under section 36(b) of the Arms Export Control Act regarding the proposed sale of the above-named articles and services, and is based on the justification accompanying said notification, of which said justification constitutes a full explanation.
