Sea Robin Pipeline Company; Notice of Proposed Changes to FERC Gas Tariff

November 20, 1997.

Take notice that on November 17, 1997, Sea Robin Pipeline Company (Sea Robin) tendered for filing as part of its FERC Gas Tariff, First Revised Volume No. 1, the revised tariff sheets set forth on Appendix A to the filing, pursuant to Section 4 of the Natural Gas Act and in compliance with the Commission's October 17, 1997, Order in Docket Nos. RP97-343-000 and 001 to become effective November 1, 1997.

On July 17, 1996, the Commission issued Order No. 587 in Docket No. RM96-1-000 which revised the Commission's regulations governing interstate natural gas pipelines to require such pipelines to follow certain standardized business practices issued by the Gas Industry Standards Board (GISB) and adopted by the Commission in Order No. 587. 18 CFR 284.10(b). On January 3, 1997, Sea Robin made its compliance filing submitting pro forma tariff sheets to comply with Order No. 587 in Docket No. RP97-224. On March 3, 1997, the Commission issued an order in said docket in response to Sea Robin's January 3, 1997 filing, requiring Sea Robin to file to implement a pooling service on its system.

Sea Robin filed tariff sheets on April 29, 1997, setting forth the terms and conditions under which Sea Robin proposed to implement a pooling service on its system. The Commission's October 17, 1997, Order approved implementation of a pooling service on Sea Robin's system on or before July 1, 1998, and required Sea Robin to clarify references in Section 5.10(c) regarding nomination of interruptible transportation and assignment of delivery points under Pooling Service

Agreements and to allow for pool to pool transfers.

The compliance sheets filed by Sea Robin established Tier I and Tier II pools consistent with the Tier I and Tier II mechanism in Southern Natural Gas Company's Tariff to facilitate pool to pool transfers. In addition, Sea Robin has clarified in Section 5.10(c) that the intended purpose of the section was to establish a shipper's right to retain its primary delivery points rights under its FTS or FTS-2 Agreement or designate such rights to the pool. Since a FTS or FTS-2 shipper's right to a primary delivery point is capacity specific, it should not have to give away such rights to the pool if it wants to retain them. If a FTS or FTS-2 shipper does not designate to the pool its rights to a primary firm point, then the pool's priority at a delivery point for purposes of capacity allocation will be established on a secondary (B-1) firm basis.

Sea Robin also made some minor changes to the tariff sheets to incorporate its Rate Schedule FTS-2 and some language in its definition section previously approved by the Commission in Sea Robin's GISB compliance proceeding in Docket No. RP97-224. Sea Robin has requested to place the tariff sheets into effect November 1, 1997; and, consistent with the terms of the October 17, 1997, Order, Sea Robin has identified on the tariff sheets that it will implement pooling service on the system no later than July 1, 1998.

Any person desiring to protest this filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Section 385.211 of the Commission's Rules of Practice and Procedure. All such protests must be filed in accordance with Section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room.
