

represent pesticide users. Supporter organizations influence pesticide use or have an interest in pesticide issues.

In 1996, a National PESP Workshop was held in the Washington, DC area. At that workshop, many participants suggested that regional workshops be held to provide for more one-on-one contact between members in smaller groups. These workshops are in response to that request. The Agency anticipates holding additional regional workshops in the future.

Topics to be discussed at the workshops include: The development and implementation of risk reduction strategies; results from funded PESP projects; and the PESP grant process. There will be time for open discussion among the participants. A separate session will be held immediately following the general session for any organizations interested in joining the program.
