6. Information Collection to Establish Community Assistance Panels (CAPs)—(0923–0007)—Extension—The Agency for Toxic Substances and Disease Registry (ATSDR) is mandated pursuant to the 1980 Comprehensive Environmental Response Compensation and Liability Act (CERCLA), and its 1986 Amendments, The Superfund Amendments and Reauthorization Act (SARA), to prevent or mitigate adverse human health effects and diminished quality of life resulting from the

exposure of hazardous substances into the environment. To facilitate this effort, ATSDR seeks the cooperation of the community being evaluated through direct communication and interaction. Direct community involvement is required to conduct a comprehensive scientific study and to effectively disseminate specific health information in a timely manner. Also, this direct interaction fosters a clear understanding of health issues that the community considers to be of importance and

establishes credibility for the agency. The Community Assistance Panel nomination forms are completed by individuals in the community to nominate themselves or others for participation on these panels. Other than the possible cost of a postage stamp, there is no cost to respondents. This request is for a 3-year extension of the current OMB approval of the Community Assistance Panel nominations form.

Proposed Information Collection Activity; Comment Request

Proposed Project(s):

Title: April 1998 Current Population Survey Supplement on Child Support.

OMB No.: New Collection.

Description: Collection of these data will assist legislators and policymakers in determining how effective their policymaking efforts have been over time in applying the various child support legislation to the overall child support enforcement picture. This information will help policymakers determine to what extent individuals on welfare would be removed from the welfare rolls as a result of more stringent child support enforcement efforts.

Respondents: Individuals or Households.
