6. Information Collection to Establish Community Assistance Panels (CAPs)—(0923–0007)—Extension—The Agency for Toxic Substances and Disease Registry (ATSDR) is mandated pursuant to the 1980 Comprehensive Environmental Response Compensation and Liability Act (CERCLA), and its 1986 Amendments, The Superfund Amendments and Reauthorization Act (SARA), to prevent or mitigate adverse human health effects and diminished quality of life resulting from the

exposure of hazardous substances into the environment. To facilitate this effort, ATSDR seeks the cooperation of the community being evaluated through direct communication and interaction. Direct community involvement is required to conduct a comprehensive scientific study and to effectively disseminate specific health information in a timely manner. Also, this direct interaction fosters a clear understanding of health issues that the community considers to be of importance and

establishes credibility for the agency. The Community Assistance Panel nomination forms are completed by individuals in the community to nominate themselves or others for participation on these panels. Other than the possible cost of a postage stamp, there is no cost to respondents. This request is for a 3-year extension of the current OMB approval of the Community Assistance Panel nominations form.

Respondents	Number of respondents	Number of responses/respondents	Avg. burden/response (in hrs.)	Total burden (in hrs.)
General Public	300	1	.1666	50
Total				50

Centers for Disease Control and Prevention

The National Institute for Occupational Safety and Health (NIOSH) of the Centers for Disease Control and Prevention (CDC) Announces the Following Meeting

Name: Biomechanical Stress Control in Drywall Installation.

Time and Date: 9 a.m.—12 noon, January 15, 1998.

Location: Suncrest Facility, Large Conference Room, NIOSH, CDC, 3040 University Avenue, Morgantown, West Virginia 26505.

Status: Open to the public, limited only by the space available. The meeting

room accommodates approximately 50 people.

Purpose: Participants will provide NIOSH with their individual advice and comments regarding the technical and scientific aspects of the study protocol, “Biomechanical Stress Control in Drywall Installation,” being conducted at NIOSH. Participants on the peer review panel will review the study protocol and provide individual advice on the conduct of the study. Viewpoints and suggestions from industry, labor, academia, other governmental agencies, and the public are invited.

CONTACT PERSON FOR ADDITIONAL INFORMATION: Christopher S. Pan, Ph.D., NIOSH, CDC, M/S P119, 3030 University Avenue, Morgantown, West Virginia 26505, telephone 304/285–5978.

Dated: December 5, 1997.

Julia M. Fuller,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).
