Congress authorized a recreation fee demonstration program in Pub. L. 104-134. The U.S. Fish and Wildlife Service was one of the four agencies mandated to implement the program and evaluate its impact on the visiting public. This study is designed to scientifically evaluate visitor reactions and impact of the fees on visitation to the national wildlife refuges (NWR); it will be

conducted by the U.S. Geological Survey Biological Resources Divisions Social Economic and Institutional Analysis Section in Fort Collins, Colorado under a cooperative agreement with the U.S. Fish and Wildlife Service.

To represent the various types of fee changes, as well as fee demonstration refuges, six distinct fee programs and ten refuges were selected for inclusion in the study. These include (1) new entrance fees (Sacramento NWR, CA and Arkansas NWR, TX); (2) increased entrance fees (Dungeness NWR, WA); (3) new annual passes (Chincoteague NWR, VA and Crab Orchard NWR, IL); (4) new hunt fees (St. Catherine's Creek NWR, MS and Balcones NWR, TX); (5) non-hunt use permits (Buenos Aires NWR, AZ and Fort Niobrara NWR, NE) and (6) non-fee adjustments (Piedmont NWR, GA). Random samples of individuals using these refuges will be surveyed. The Service plans to use as part of the evaluation process a survey questionnaire to assess the different fee programs. An on-site questionnaire will be distributed during the peak season to a random sample of the visiting public. A minimum of 400 completed surveys will be obtained for each fee type. An additional 200 surveys will be obtained from Sacramento NWR to allow for examination of credit card entrances as well as new entrance fees in general. Overall, this will result in a total sample of 2,600 respondents. The margin of error for each fee type is $\pm 5\%$ at the 95% confidence level. The information gained from this survey will provide a scientific basis for evaluating the viability of the fee program among the visiting public. The lead project officer is Dr. Jonathan G. Taylor, Research Social Scientist, phone 970-226-9438, 4512 McMurry Avenue, Fort Collins, CO 80525-3400.
