

6. The number of hours needed annually to complete the requirement or request: For maintenance of existing Agreement State programs and the IMPEP questionnaire: 219,600 hours (an average of 7,320 hours per State). For 8 IMPEP team reviews: 288 hours (an average of 36 hours per review). For a State interested in becoming an Agreement State, approximately 3,600 hours. The total number of hours annually is 223,848 hours.

7. Abstract: States wishing to become an Agreement State are requested to provide certain information to the NRC as specified by the Commission's Policy Statement, "Criteria for Guidance of States and NRC in Discontinuance of NRC Regulatory Authority and Assumption Thereof By States Through Agreement." Agreement States need to ensure that the Radiation Control Program under the Agreement remains adequate and compatible with the requirements of Section 274 of the Atomic Energy Act and must maintain certain information. NRC conducts periodic evaluations through IMPEP to ensure that these programs are compatible with the NRC's, meet the applicable parts of Section 274 of the Atomic Energy Act, and are adequate to protect public health and safety.

Submit, by February 10, 1998, comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-293]

Boston Edison Company; Pilgrim Nuclear Power Station

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an Order approving, under 10 CFR 50.80, an application regarding the proposed corporate restructuring of Boston Edison Company, the licensee for the Pilgrim Nuclear Power Station (PNPS). By application dated June 9, 1997, Boston Edison Company informed the Commission that it is proposing to become a wholly owned subsidiary of a newly created holding company, BEC Energy. Boston Edison Company will remain the holder of its license to own and operate the PNPS. No direct transfer of the license will occur. Under the restructuring, the holders of Boston Edison Company common stock will become the holders of common stock of the holding company. After the restructuring, Boston Edison Company will continue to be a public utility providing the same utility services as it did immediately prior to the restructuring, and will continue to be an
