Draft General NPDES Permit for Shore-Based Seafood Processors Operating in Kodiak, Alaska (General NPDES Permit No. AK-G52-8000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of draft general NPDES permit.

SUMMARY: The Director, Office of Water, EPA Region 10, is proposing to issue a general National Pollutant Discharge Elimination System (NPDES) permit no. AK-G52-8000 for shore-based seafood processors operating in Kodiak, Alaska, pursuant to the provisions of the Clean Water Act, 33 U.S.C. 1251 *et seq.* The proposed general NPDES permit authorizes discharges to St. Paul Harbor and Near Island Channel. The existing ten shore-based facilities are engaged in the processing of fresh, frozen, and canned seafood, surimi and fish powder. Discharges authorized by the proposed general permit include processing wastes, process disinfectants, and other wastewater, including cooling water, boiler water, freshwater pressure relief water, refrigeration condensate, water used to transfer seafood to a facility, and live tank water. One facility discharges treated domestic and sanitary wastewater to St. Paul Harbor. The proposed permit authorizes discharge of wastewater to waters of the United States in and contiguous to the State of Alaska.

The processing facilities are required to collect and route all seafood processing wastes and wastewater to a treatment system consisting of 1 mm screens or equivalent technology. All seafood solid wastes are collected and transported to the by-product recovery facility in Kodiak. One facility processes fish wastes into fish powder at their location.

The proposed general permit contains the same effluent guideline limitations as the previous individual permits. Separate monitoring of the surimi and

fish powder waste streams are new additions to the proposed general permit.

The proposed general NPDES permit for seafood processors in Kodiak, Alaska, does not authorize discharges of petroleum hydrocarbons, toxic pollutants, or other pollutants not specified in the permit.
