

(Adoption and Foster Care Analysis and Reporting System (AFCARS) required by section 479(b)(2) of the Social Security Act, or CAPTA reporting requirements) about the extent of the problems facing these children or the effectiveness of various methodologies designed to provide assistance to this population, without access to timely and accurate information. Forty-six States and the District of Columbia have developed or have committed to develop a SACWIS system with enhanced (75 percent) Federal financial

participation (FFP). The purpose of these reviews is to ensure that all aspects of the project, as described in the approved Advance Planning Document (APD), have been adequately completed, and conform with applicable regulations and policies.

States will submit the completed SACWIS Assessment Review Questionnaire and other documentation. The additional documents should all be readily available to the State as a result of good project management.

The information collected in the Assessment Review Guide will allow State and Federal officials to determine if the State's SACWIS system meets the requirements for enhanced title IV-E Federal financial participation defined at 45 CFR 1355.50. Additionally, other States will be able to use the documentation provided as part of this review process, in their own system development efforts.

**Federal Geographic Data Committee (FGDC); Public Review of Data Content Standard for Facility Location and Identification**

**ACTION:** Notice; Request for comments.

**SUMMARY:** The FGDC is conducting a public review of the Data Content Standard for Facility Location and Identification. The purpose of this public review is to provide data users and producers with an opportunity to comment on this standard in order to ensure that it meets their needs. Specifically, the FGDC requests responses in three areas: (1) identify any "ad hoc" or "defacto" standards being used that address data content for facility location and identification; (2) identify additional data requirements or concepts not contained in this standard that are necessary to meet a user's requirements; (3) identify any issues that a user may have in implementing the standard in the users information systems.

Participants in the public review are encouraged to provide comments that address specific issues/changes/additions that may result in revisions to the draft facility location and identification standard. All participants who make comments during the public
