Effingham Railroad Company (ERRC), a Class III rail carrier,¹ has filed a verified notice of exemption under 49 CFR 1150.31 to operate over approximately 9,201 feet of railroad line that will be constructed for and acquired by Total Quality Warehouse (TQW), located in an industrial park in Effingham, IL,² connecting TQW's facility with the Illinois Central Railroad Company.

Construction of the track is expected to begin in January 1998, and ERRC will begin operations under agreement with TQW, as soon as construction is completed.

¹ ERRC became a carrier pursuant to a notice of exemption in *Effingham Railroad Company—Operation Exemption—Line Owned by Agracel Corporation*, STB Finance Docket No. 33468 (STB served Oct. 22, 1997), when it became the operator of approximately 206.05 feet of track, owned by the Agracel Corporation, which connects with a Consolidated Rail Corporation line and serves a facility in the Effingham industrial park.

² ERRC states that it will also operate an additional 400 feet of track, within the industrial park, connecting its existing line of railroad with TQW's facility, as a side track, exempt from regulation pursuant to 49 U.S.C. 10906.

³ On December 9, 1997, Joseph C. Szabo, on behalf of United Transportation Union-Illinois Legislative Board, filed a petition to stay the operation of the notice of exemption, as well as to reject the notice or to revoke the exemption. North American Railnet, Inc.; Continuance in Control Exemption—Illinois Railnet, Inc.

North American Railnet, Inc. (Railnet) has filed a notice of exemption to continue in control of the Illinois Railnet, Inc. (IR), upon IR's becoming a Class III railroad.

The earliest the transaction could be consummated was December 9, 1997, the effective date of the exemption (7 days after the exemption was filed).

This transaction is related to STB Finance Docket No. 33516, *Illinois Railnet, Inc.—Acquisition and Operation Exemption—The Burlington Northern and Santa Fe Railway*, wherein IR seeks to acquire and operate a rail line from The Burlington Northern and Santa Fe Railway.

Applicant controls one existing Class III railroad: Nebraska, Kansas, & Colorado Railnet, Inc., operating in the States of Kansas, Nebraska, and Colorado.

Applicant states that: (i) The rail lines to be operated by IR do not connect with any railroad in the corporate family; (ii) the transaction is not part of a series of anticipated transactions that would connect IR's lines with any railroad in the corporate family; and (iii) the transaction does not involve a Class I carrier. Therefore, the transaction is exempt from the prior approval requirements of 49 U.S.C. 11323. See 49 CFR 1180.2(d)(2).

Under 49 U.S.C. 10502(g), the Board may not use its exemption authority to relieve a rail carrier of its statutory obligation to protect the interests of its employees. Section 11326(c), however, does not provide for labor protection for transactions under sections 11324 and 11325 that involve only Class III rail carriers. Because this transaction involves Class III rail carriers only, the Board, under the statute, may not impose labor protective conditions for this transaction.

If the notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 33517, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, N.W., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on John D. Heffner, Rea, Cross & Auchincloss, 1920 N Street, N.W., Suite 420, Washington, DC 20036.

Decided: December 16, 1997.

By the Board, David M. Konschnik, Director, Office of Proceedings.

UTAH RECLAMATION MITIGATION AND CONSERVATION COMMISSION

Provo River Restoration Project

AGENCIES: The Utah Reclamation Mitigation and Conservation Commission (Commission) and the Department of the Interior (Department).

ACTION: Notice of availability of the Final Environmental Impact Statement (FEIS).

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, as amended, the Commission and the Department have jointly issued a Final Environmental Impact Statement (FEIS) for the Provo River Restoration Project (PRRP). The FEIS analyzes alternatives and impacts associated with measures to restore and improve the fish habitat, riparian habitat, and natural functioning of the Provo River between Jordanelle Dam and Deer Creek Reservoir, Wasatch County, Utah. These measures are required to fulfill commitments of the 1988 Aquatic Mitigation Plan for the Strawberry Aqueduct and Collection System (SACS) and the 1987 Wildlife Mitigation Plan for the Bonneville Unit of CUP as partial mitigation for past impacts of the CUP to this and other reaches of the Provo River and to other streams within the Bonneville Unit area. The Central Utah Project Completion Act (CUPCA) also authorizes the Commission and the Department to apply additional fish habitat and riparian habitat rehabilitation benefits and recreational facilities on the Provo River as mitigation for the Provo River Project, a duly authorized Reclamation project prior to CUP. The Provo River Restoration Project plan presents three action alternatives which meet, to a greater or lesser degree depending on the alternative selected, the Commission's habitat restoration and improvement mitigation and conservation responsibilities associated with the Provo River corridor in Heber Valley.

DATES: Written comments on the FEIS must be submitted or postmarked no later than February 6, 1997.

ADDRESSES: Comments on the FEIS should be addressed to: Michael C.

Weland, Executive Director, Utah Reclamation Mitigation and Conservation Commission, 102 West 500 South, Suite 315, Salt Lake City, Utah 84101.

SUPPLEMENTARY INFORMATION: Public participation has occurred throughout the EIS process. A Notice of Intent was filed in the **Federal Register** in December 1992. A notice of availability of the Draft Environmental Impact Statement was published in the **Federal Register** June 13, 1996. Since that time, open houses, public meetings, and mail-outs have been conducted to solicit comments and ideas. Any comments received throughout the process have been considered.
