Change of Using Agency for Restricted Areas R-4105A and R-4105B; No Man's Land Island, MA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action changes the using agency for Restricted Areas R-4105A (R-4105A) and R-4105B (R-4105B), No Man's Land Island, MA, from the "U.S. Navy, Commanding Officer, Naval Air Station (NAS) South Weymouth, MA," to "Air National Guard (ANG), 104th Fighter Wing, Barnes Municipal Airport, Westfield, MA." This change is required due to the closure of NAS South Weymouth.

EFFECTIVE DATE: 0901 UTC, February 26, 1998.

FOR FURTHER INFORMATION CONTACT: Paul Gallant, Airspace and Rules Division, ATA-400, Office of Air Traffic Airspace Management, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591; telephone: (202) 267-8783.

SUPPLEMENTARY INFORMATION:

Background

The Defense Base Realignment and Closure Commission directed the closure of NAS South Weymouth, MA, which is currently the designated using agency for R-4105A and R-4105B. However, the ANG 104th Fighter Wing has been a long-time co-user of the range and, as such, has a continuing requirement for these restricted areas. By this action, the 104th Fighter Wing is being designated as the using agency since it has become the primary user of the restricted areas.

The Rule

This action amends 14 CFR part 73 by changing the using agency for R-4105A

and R-4105B, No Man's Land Island, MA, from "U.S. Navy, Commanding Officer, NAS South Weymouth, MA," to "ANG, 104th Fighter Wing, Barnes Municipal Airport, MA." This administrative change will not alter the boundaries, altitudes, time of designation, or activities conducted within the restricted areas; therefore, I find that notice and public procedure under 5 U.S.C. 553(b) are unnecessary. Section 73.41 of part 73 was republished in FAA Order 7400.8E, dated November 7, 1997.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This action is a minor administrative change to amend the designated using agency of existing restricted areas. There are no changes to air traffic control procedures or routes as a result of this action. Therefore, this action is not subject to environmental assessments and procedures in accordance with FAA Order 1050.1D, "Policies and Procedures for Considering Environmental Impacts," and the National Environmental Policy Act.

Modification of VOR Federal Airway V-204; Yakima, WA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action reduces the width of Very High Frequency Omnidirectional Range (VOR) Federal Airway V-204 east of the Yakima, WA, Very High Frequency Omnidirectional Range/Tactical Air Navigation (VORTAC) from 4 to 3 nautical miles (NM) north of the airway centerline. Currently, the northern edge of V-204 penetrates Special Use Airspace Restricted Area R-6714 (R-6714), thus creating an inefficient and potentially hazardous situation. The FAA is taking this action to enhance the safety and efficiency of aircraft operations in the vicinity of Yakima VORTAC.
