

and to select samples for the Census Bureau's demographic surveys. Policymakers, planners, businessmen/women, and others use the detailed geographic data collected from state and local officials on new residential construction authorized by building permits to monitor growth and plan for local services, and to develop production and marketing plans. This survey is the only source of statistics on residential construction for states and smaller geographic areas.

The most significant revision we are making in this submission is that we plan to no longer collect any data on publicly-owned construction projects because we no longer need these data. Additionally, some other items have been either combined or dropped because of changing data needs.

We are seeking an agreement with outside sources to provide funding for the collection of much of the private construction projects data we now collect (all projects except new residential housekeeping buildings which we will continue to collect, regardless). We plan to discontinue collecting these data if no reimbursement agreement is made, as we can no longer fund their collection. This would reduce considerably the scope of the information collection. This request provides for the contingent collection of these data.

Affected Public: State, local, or tribal government.

Frequency: Monthly and annually.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC, Sections 8(b), 9(b), 161, and 182; and Title 15 USC, Section 1525.

Submission For OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: Bureau of the Census.

Title: Survey of Building and Zoning Permit Systems.

Form Number(s): C-411.

Agency Approval Number: 0607-0350.

Type of Request: Reinstatement, with change, of an expired collection.

Burden: 500 hours.

Number of Respondents: 2,000.

Avg Hours Per Response: 15 minutes.

Needs and Uses: The Census Bureau conducts the Survey of Building and Zoning Permit Systems to gather data from State and local building permit officials on the existence of new permit issuing systems or changes to existing systems. The survey is sent to building permit officials when we have reason to believe that a new permit-issuing system has been established or changes have been made to an existing system. The questionnaire asks for such items as geographic coverage and types of construction for which permits are issued. We use data gathered in this survey to update the universe of building permit-issuing places, the sampling frame for the Building Permits Survey (BPS) and the Survey of Construction (SOC). These two sample surveys provide widely used measures of construction activity, including the economic indicators *Housing Units Authorized by Building Permits* and *Housing Starts*.

In this submission we are dropping two questions and adding two others because of changing data needs. There will be no net change in respondents' time burden in completing the form. Additionally, we are seeking an agreement with outside sources to provide funding for the collection of much of the information we now collect about types of construction for which permits are issued (all construction except new residential housekeeping buildings which we will continue to collect, regardless). We plan to discontinue collecting these data if no reimbursement agreement is made, as we can no longer fund their collection. This would reduce considerably the scope of the information collection. This request provides for the contingent collection of these data.

Affected Public: State, local, or tribal government.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC, Sections 8(b), 9(b), 161, and 182; and Title 15 USC, Section 1525.

OMB Desk Officer: Nancy Kirkendall, (202) 395-7313.
