

application for an original license for the Power Creek Project, and has prepared a Final Environmental Assessment (FEA) for the project. The project would be located near Cordova, Alaska. On October 8, 1997, the Commission staff issued and distributed to all parties requested that comments be filed with the Commission within 30 days. Comments were filed and are addressed in the FEA. The FEA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with the appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

Copies of the FEA are available for review in the Public Reference Room, Room 2A, of the Commission's offices at 888 First Street, N.E., Washington, D.C. 20426.
