Centers for Disease Control and Prevention

Meeting

The National Center for Environmental Health (NCEH) of the Centers for Disease Control and Prevention (CDC) announces the following workshop.

Name: Workshop on Public and Occupational Health Concerns at Rocky Flats, Colorado.

Time and Date: 3 p.m.–9 p.m., January 7, 1998.

Place: Doubletree Hotel, 8773 Yates Drive, Westminster, Colorado 80030–3678, telephone 303/427–4000.

Status: Open to the public, limited only by the space available. The meeting room accommodates approximately 100 people.

Purpose: The purpose of this workshop is to provide guidance to public health researchers on the inclusion of communities in the planning, conduct, and application of research.

History has demonstrated, when medical and public health science is planned and conducted in the absence of considering the social context of its work, people have been harmed. As a result, society has responded with laws and regulations to protect human subjects who participate in research. Lacking in this discussion has been the issue of planning and conducting research that involves and impacts communities. This workshop will provide a unique opportunity to open dialogue between government, communities, and researchers. This dialogue should result in a proposed framework through which CDC promotes public health, advances democratic principles, establishes an ethical basis for community-based research, enhances scientific credibility, and provides mechanisms for building public trust while advancing the science of public health.

Matters to be Discussed: Agenda items will include presentations on the Dose Reconstruction Project, the National Institute for Occupational Safety and Health studies, and the Workers Medical Surveillance project. Time will be set aside for public comments and discussions, with Agency staff, followed by the workshop being divided into breakout sessions: (1) Environmental Health Issues and (2) Occupational Health Issues.

Agenda items are subject to change as priorities dictate.

Contact Persons for More Information: Michael J. Sage, Deputy Chief, Radiation Studies Branch (RSB), or Carolyn M. Hart, RSB, Division of Environmental Hazards and Health Effects, NCEH, CDC, 4770 Buford Highway, NE, (F–35), Atlanta, Georgia 30341–3724, telephone 770/488–7040, FAX 770/488–7044.

Dated: December 30, 1997.

Julia M. Fuller,

Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention (CDC).

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Food and Drug Administration

[Docket No. 97N–0513]

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Food and Drug Administration, HHS.

ACTION: Notice.

SUMMARY: The Food and Drug Administration (FDA) is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act of 1995 (the PRA), Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement of an existing collection of information, and to allow 60 days for public comment in response to the notice. This notice solicits comments on provisions concerning orphan drugs.

DATES: Submit written comments on the collection of information by March 6, 1998.

ADDRESSES: Submit written comments on the collection of information to the Dockets Management Branch (HFA–305), Food and Drug Administration, 12420 Parklawn Dr., rm. 1–23, Rockville, MD 20857. All comments should be identified with the docket number found in brackets in the heading of this document.

FOR FURTHER INFORMATION CONTACT: Denver Presley, Office of Information Resources Management (HFA–250), Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857, 301–827–1472.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. ''Collection of information'' is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3506(c)(2)(A)) requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement of an existing collection of information, before submitting the collection to OMB for approval. To comply with this requirement, FDA is publishing notice of the proposed collection of information listed below.

With respect to the following collection of information, FDA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of FDA's functions, including whether the information will have practical utility; (2) the accuracy of FDA's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques, when appropriate, and other forms of information technology.
