Average Burden Per Response: 8.75 hours.

Annual Burden Hours: 1.619.

Needs and Uses: The information collection is necessary to obtain and record the qualification and budget information of universities submitting proposal for National Security Education Program funding. Respondents are representatives of U.S. colleges and universities who choose to submit a proposal in competition for a National Security Education Program (NSEP) Institutional Grant. The NSEP was established by the National Security Education Act of 1991. DD Form 2729, "National Security Education Program Proposal Budget Estimate Worksheet," is a single-page document in which the applicant indicates the cost associated with the proposal by four major categories. Without this form there would be no precise, standard manner for applicant to portray their budget requests. Further, there would be no consistent measure by which the meritreview panelists could judge these proposals. DD Form 2730, "National Security Education Program Proposal Cover Sheet," is a concise vehicle for transmitting proposals. This form eliminates the need for lengthy, nonstandard letters of transmittal.

Affected Public: Business or Other For-Profit.

Frequency: On occasion.

Respondent's Obligation: Required to obtain or retain benefits.
