Written data or comments concerning the application and EA/HCP should be submitted to the Field Supervisor, Ecological Services Field Office, Phoenix, Arizona (see address above). Please refer to permit number PRT-837858 when submitting comments.

**FOR FURTHER INFORMATION CONTACT:** Doug Duncan at the above Tucson Suboffice.

**SUPPLEMENTARY INFORMATION:** Section 9 of the Act prohibits the "taking" of threatened and endangered species such as the Yaqui catfish and Yaqui chub. However, the Service, under limited circumstances, may issue permits to take threatened or endangered wildlife species incidental to, and not the purpose of, otherwise lawful activities. Regulations governing permits for endangered species are at 50 CFR 17.22.

The EA considers the environmental consequences of two alternatives, including the proposed action. Three other alternatives were explored, but were rejected as unworkable. The proposed action alternative is issuance of the incidental take permit and implementation of the HCP as submitted by the Applicant. The HCP provides for a strategy to conserve the listed and unlisted Plan Species and to restore watershed health in the West Turkey Creek drainage. The HCP is designed to provide a net benefit to the Plan Species. The HCP has stipulations for monitoring of species populations and habitats and functioning of the HCP. The HCP also provides for funding the mitigation measures and monitoring. The Service specifically requests comment on the appropriateness of the "No Surprises" assurances contained in this application.

*Applicant:* El Coronado Ranch plans to pursue ranching and related activities on 1,920 acres of private land and 13,284 acres of leased grazing allotments. The anticipated incidental take will occur on ponds, ditches, and associated structures on private land. El Coronado Ranch is located in the West Turkey Creek watershed of the

Chiricahua Mountains, Cochise County, Arizona.
