Food Advisory Committee

The Committee provides advice primarily to the Director, Center for Food Safety and Applied Nutrition, and as needed, to the Commissioner of Food and Drugs, and other appropriate officials, on emerging food safety, food science, and nutrition issues that FDA considers of primary importance. The Committee also provides advice and makes recommendations on ways of communicating to the public the potential risks associated with these issues and recommends approaches to be considered in addressing them.

Criteria for Members

Persons nominated for membership on the Committee shall be knowledgeable in the fields of physical sciences, biological and life sciences, food science, risk assessment, and other relevant scientific disciplines. The term of office is up to 4 years.

The Committee includes technically qualified members who are identified with consumer interests and representatives of industry interests.
