14 CFR Part 71

[Airspace Docket No. 97–ASO–30]

Amendment of Class E Airspace; Sparta, TN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This amendment changes the airport name of the White County Airport to Upper Cumberland Regional Airport. This amendment also makes a technical change to the airspace description without actually changing the airspace design. This change is being made as a result of the revocation of an adjoining Class E airspace area.

EFFECTIVE DATE: 0901 UTC, February 26, 1998.

FOR FURTHER INFORMATION CONTACT: Nancy B. Shelton, Airspace Branch, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Georgia 30320; telephone (404) 305–5586.

SUPPLEMENTARY INFORMATION:

History

The name of the White County Airport was changed to Upper Cumberland Regional on June 17, 1993. Additionally, an adjacent Class E airspace area for Cookeville, TN, was revoked on October 16, 1993. Both of these changes must be reflected in the legal description of the Sparta Class E airspace description. This rule will become effective on the date specified in the **EFFECTIVE DATE** section. Since this action is technical in nature, does not change the airspace design, and has no impact on the users of the airspace, notice and public procedure under 5 U.S.C. 553(b) are unnecessary.

Designations for Class E airspace extending upward from 700 feet or more above the surface of the earth are published in FAA Order 7400.9E, dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR part 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

The amendment to 14 CFR part 71 changes the airport name of the White County Airport to Upper Cumberland Regional Airport. This amendment also makes a technical change to the airspace description without actually changing the airspace design. This change is being made as a result of the revocation of an adjoining Class E airspace area.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT

Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation, as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
