

to 29 CFR 1910.7, for recognition as a Nationally Recognized Testing Laboratory (see 59 FR 783, 1/6/94), and was so recognized (see 59 FR 37509, 7/22/94). As a part of this notice of recognition, a condition was imposed by OSHA that Wyle "will not test certify any equipment or materials for a client which installs its equipment in an electronic enclosure cabinet manufactured or distributed by Wyle." This condition stemmed from the ownership by Wyle of an Electronic Enclosures Division, which manufactured and distributed electronic enclosures. Wyle Laboratories informed OSHA by letter dated July 15, 1997, that it has sold its Electronic Enclosure Division in its entirety to Electronic Enclosures, Inc., a U.S. subsidiary of the Walker Dickson Group of Edinburgh, Scotland. Wyle also requested that OSHA remove the previously described condition, and notice is hereby given that this condition of Wyle's recognition is removed. While the sale of Division moots this restriction, a notice is appropriate to amend the public record of Wyle's recognition.

The address of the laboratory covered by this request is: Wyle Laboratories, 7800 Highway 20 West, Huntsville, Alabama 35807.

All other conditions and requirements of Wyle's recognition remain the same.

Since this request by Wyle does not fall within the public notice requirements of 29 CFR 1910.7, this is the only notice that OSHA will publish on this decision. A copy of Wyle's July 15, 1997 letter to OSHA is available for inspection and duplication at the Docket Office, Room N-2634, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue, N.W., Washington, D.C. 20210, (Docket No. NRTL-1-93).

(Authority: 29 CFR 1910.7)

Signed at Washington, D.C. this 7th day of January 1998.

**Charles N. Jeffress,**

*Assistant Secretary.*

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-410]

### New York State Electric & Gas Corporation, Nine Mile Point Nuclear Station, Unit 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an Order approving, under 10 CFR 50.80, an application regarding a proposed indirect transfer of control of ownership and possessory rights held by New York State Electric & Gas Corporation (NYSEG) under the operating license for Nine Mile Point Nuclear Station, Unit No. 2 (NMP2). The indirect transfer would be to a holding company, not yet

named, to be created over NYSEG in accordance with an executed "Agreement Concerning the Competitive Rate and Restructuring Plan of New York State Electric & Gas Corporation." NYSEG is licensed by the Commission to own and possess an 18-percent interest in NMP2, located in the town of Scriba, Oswego County, New York.

#### Environmental Assessment

##### *Identification of the Proposed Action*

The proposed action would consent to the indirect transfer of control of the license to the extent effected by NYSEG becoming a subsidiary of the holding company in connection with a proposed plan of restructuring. Under the restructuring plan, the outstanding shares of NYSEG's common stock (other than shares for which appraisal rights are properly exercised) are to be exchanged for common stock of the holding company on a share-for-share basis, such that the holding company will own all of the outstanding common stock of NYSEG. NYSEG would divest its interest in coal-fired power plants, but would continue to be an "electric utility" as defined in 10 CFR 50.2, engaged in the transmission, distribution and, in the case of NMP2 and hydroelectric facilities, the generation of electricity. NYSEG would retain its ownership interest in NMP2 and continue to be a licensee of NMP2. No direct transfer of the operating license or ownership interests in the station would result from the proposed restructuring. The restructuring of NYSEG would not involve any change to either the management organization or technical personnel of Niagara Mohawk Power Corporation (NMPC), which is responsible for operating and maintaining NMP2 and is not involved in the restructuring of NYSEG. The proposed action is in accordance with NYSEG's application dated September 18, 1997, as supplemented October 20 and 27, 1997.

##### *The Need for the Proposed Action*

The proposed action is required to enable NYSEG to restructure as described above.

##### *Environmental Impacts of the Proposed Action*

The Commission has completed its evaluation of the proposed corporate restructuring and concludes that there will be no physical or operational changes to NMP2 as a result. The corporate restructuring will not affect the qualifications or organizational affiliation of the personnel who operate
