

technical standard order may be examined, before and after the comment closing date, in Room 815, FAA Headquarters Building (FOB-10A), 800 Independence Avenue, SW., Washington, DC 20591, weekdays except Federal holidays, between 8:30 a.m. and 4:30 p.m. All communications received on or before the closing date for comments specified above will be considered by the Director of the Aircraft Certification Service before issuing the final TSO.

Background

Proposed TSO-C69c sets forth the basic requirements for the design and performance of emergency slides, ramps, and slide/raft combinations. The changes to this TSO include the addition of specific revisions to the requirements and tests for beam strength, attachment means, evacuation rate conditions, dark of night usability rate, and hot and cold soak. This revision also adds requirements for testing to ensure particular wind loading directions are added for devices which do not deploy perpendicular to the aircraft center line. In addition, Appendices 2 through 4 were added to include standardized definitions used in the TSO, described data collection procedures, and provide a detailed summary of changes contained in this latest TSO revision, respectively. The TSO has been reformatted. In addition, this revision incorporates two NTSB safety recommendations A-88-106 and A-88-107 which calls for improvements to the construction and placarding of manual inflation handles and disconnect means.

In addition to the requirements of 14 CFR 21.607(d), each separate component that is easily removable (without hand tools), an interchangeable element, or a separate sub-assembly of the article must be permanently and legibly marked with at least the name of the manufacturer, manufacturer's past number, and the TSO number.

How to Obtain Copies

A copy of the proposed TSO-C69c, may be obtained via Internet (<http://www.faa.gov/avr/air100home.htm>) or on request from the office listed under **FOR FURTHER INFORMATION CONTACT**. Federal Aviation Administration Standards for Emergency Evacuation Slides, Ramps, and Slide/Raft Combinations may be obtained at the FAA Headquarters in the Aircraft Engineering Division (AIR-120), and all Aircraft Certification Offices (ACO's).

Issued in Washington, DC, on January 13, 1998.

Abbas A. Rizvi,

Acting Manager, Aircraft Engineering Division, Aircraft Certification Service.
