

nicotine and carbon monoxide yields using both the current testing parameters and more intensive smoking conditions, thus producing a range of potential yields for each cigarette. The Commission also requested comment on: (1) the feasibility of generating the upper tier of ratings through mathematical formulas, rather than actual testing on a smoking machine; and (2) the usefulness and feasibility of two different legends that could be used in advertising to disclose the ratings. Comments are due by February 4, 1998.

By direction of the Commission, Commissioner Thompson and Commissioner Swindle not participating.

Donald S. Clark,
Secretary.
