I. Purpose

The purpose of the PR Notice is to announce that liquid chemical sterilant products intended for use on critical or semi-critical medical devices are no longer regulated as "pesticides" by the Environmental Protection Agency (EPA), but as "medical devices" under the regulatory authority of the Food and Drug Administration (FDA). For the affected liquid chemical sterilants, EPA will no longer follow the procedures described in the Memorandum of Understanding (MOU) between EPA and FDA signed on June 4, 1993 and amended on June 20, 1994. The goal of this notice is to clarify the authorities of FDA and EPA as they apply to liquid chemical sterilants, thereby increasing the efficiency of regulatory processes affecting these products.

II. Applicability

The PR Notice applies to all manufacturers, formulators, producers, and registrants of liquid chemical sterilant products intended for use on critical or semi-critical medical devices, and to products with subordinate disinfectant claims, such as tuberculocidal or virucidal claims, which support a high level disinfectant use pattern for critical or semi-critical devices.

III. Contents of the PR Notice

This notice informs registrants of liquid chemical sterilant products how to ensure that their products remain in compliance with FIFRA requirements where FIFRA still applies, and how products no longer regulated under FIFRA will be treated by EPA. In particular, the affected products will no longer be permitted to bear both FDA- and EPA-regulated claims. This notice supersedes all provisions of PR Notice 94-4 with respect to liquid chemical sterilants, but retains the provisions of PR Notice 94-4 that apply solely to general purpose disinfectants.
