SUPPLEMENTARY INFORMATION:

Title: Business and Industry Loan Program.

OMB Number: 0570-0014.

Expiration Date of Approval: September 1998.

Type of Request: Extension of a currently approved information collection and recordkeeping requirements.

Abstract: The B&I Program is authorized under Section 310-B of the Consolidated Farm and Rural Development Act, as amended. The purpose of the Business and Industry (B&I) Guaranteed and Direct Loan Programs is to improve, develop, or finance businesses, industry and employment and improve the economic and environmental climate in rural communities, including pollution abatement and control. This purpose is achieved through bolstering the existing private credit structure either through the guaranteeing of quality loans made by lending institutions or making direct

loans, thereby providing lasting community benefits. B&I program authority is composed of direct loan authority and loan guarantee authority. The program is administered by the Agency through a State Director serving the State.

All reporting and recordkeeping burden estimates for making and servicing B&I Guaranteed Loans have been moved to the new B&I Guaranteed Loan Program regulations which are at 7 CFR 4279-A and B and 4287-B. The only burden remaining associated with 7 CFR 1980-E is a small portion of B&I Direct loanmaking. 7 CFR 1951-E is used for servicing B&I Direct and Community Facility loans. The Agency is currently developing new B&I Direct Loan Program regulations. When completed, 7 CFR 1980-E will be eliminated from the CFR. Because only the burden associated with 7 CFR 1980-E is included in this package, only a fraction of the total reporting and recordkeeping burden for making and servicing B&I Direct Loans is reflected.

Estimate of Burden: Public reporting for this collection of information is estimated to average 2.75 hours per response.

Respondents: Rural businesses, for-profit businesses, non-profit businesses, Indian tribes, and public bodies.

Estimated number of respondents: 200.

Estimated number of responses per respondent: 2.

Estimated Total Annual Burden on Respondents: 3,370 hours.

Copies of this information collection and recordkeeping can be obtained from Jean Mosley, Regulations and Paperwork Management Branch, (202) 720-9750.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (b) the accuracy of the Agency estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or forms of information technology. Comments may be sent to Jean Mosley, Regulations and Paperwork Management Branch, U.S. Department of Agriculture, Stop 0743, 1400 Independence Avenue SW, Washington, DC 20250-0743. - **Title:** Report of Progress of Construction and Engineering Services and Engineer's Monthly Report of Substation Progress.

OMB Control Number: 0572-0014.

Type of Request: Reinstatement of a previously approved information collection, without change.

Abstract: The Rural Utilities Service (RUS) manages programs in accordance with the Rural Electrification Act (RE Act) of 1936, 7 U.S.C. 901 *et seq.*, as amended, and as prescribed by OMB Circular A-129, Policies for Federal Credit Programs and Non-Tax Receivables.

The Act authorizes RUS to lend funds for construction of various facilities under terms and conditions which will safeguard the security of the loans. One method of safeguarding loan security is to see that the facilities for which funds are loaned are actually constructed.

RUS therefore requires borrowers to submit RUS Form 178, Report of Progress of Construction and Engineering Services, and RUS Form 457, Engineer's Monthly Report of Substation Progress. These forms keep RUS abreast of progress on these construction projects on a month-by-month basis. The frequency of the report allows RUS to detect any potential problems before they reach a critical stage and to make the necessary adjustments to place construction back on schedule.
