

notification is .5 hours. 400 notifications \times .5 = 200 hours.

Needs and Uses: Section 76.958 states that a regulated cable operator that proposes to change any rate while a cable service tier rate is pending before the Commission shall provide the Commission at least 30 days notice of the proposed change. The information will be used by the Commission to ensure that regulated cable operators give the appropriate notice to the Commission concerning proposed rate changes while they have cable service tier complaints pending before the Commission.

OMB Control Number: 3060-0570.

Title: Section 76.982, Continuation of Rate Agreements.

Type of Review: Extension of a currently approved collection.

Respondents: State or local governments.

Number of Respondents: 25.

Estimated Time Per Response: .5 hours.

Total Annual Burden to Respondents: We estimate that 25 notifications are annually filed by franchising authorities who wish to continue to regulate rates under existing rate agreements. The average burden on franchising authorities is .5 hours per notification. 25 notifications \times .5 hours = 12.5 hours (rounded up to 13 hours).

Total Annual Cost to Respondents: Postage and stationery expenses are estimated to be \$1 for each filing. 25 notifications \times \$1 = \$25.

Needs and Uses: Section 76.982 provides that franchise authorities who were regulating basic cable rates pursuant to a rate agreement executed before July 1, 1990, may continue to regulate rates during the remainder of the agreement. Franchise authorities must notify the Commission of their intentions to continue regulating rates under the rate agreement. These new requirements ensure that cable subscribers nationwide enjoy the rates that would be charged by cable systems operating in a competitive environment. These notifications enable the Commission to determine the extent of rate regulation agreements that pre-date the 1992 Cable Act and that are still in effect.
