SUPPLEMENTARY INFORMATION:

I. Background

Section 801 of the CRA precludes a rule from taking effect until the agency promulgating the rule submits a rule report, which includes a copy of the rule, to each House of Congress and to the Comptroller General of the General Accounting Office (GAO). EPA recently discovered that it had inadvertently failed to submit the above rule as required; thus, although the rule was promulgated on April 25, 1996 (61 FR 18260) by operation of law, the rule did not take effect on April 15, 1996, as stated therein. Now that EPA has discovered its error, the rule is being submitted to both Houses of Congress and the GAO. This document amends the effective date of the rule consistent with the provisions of the CRA.

Section 553 of the Administrative Procedure Act, 5 U.S.C. 553(b)(B), provides that, when an agency for good cause finds that notice and public procedure are impracticable, unnecessary or contrary to the public interest, an agency may issue a rule without providing notice and an opportunity for public comment. EPA has determined that there is good cause for making today's rule final without prior proposal and opportunity for comment because EPA merely is correcting the effective date of the promulgated rule to be consistent with the congressional review requirements of the Congressional Review Act as a matter of law and has no discretion in this matter. Thus, notice and public procedure are unnecessary. The Agency finds that this constitutes good cause under 5 U.S.C. 553(b)(B). Moreover, since today's action does not create any new regulatory requirements and affected parties have known of the underlying rule since April 25, 1996, EPA finds that good cause exists to provide for an immediate effective date pursuant to 5 U.S.C. 553(d)(3) and 808(2). Because the delay in the effective date was caused by EPA's inadvertent failure to submit the rule under the CRA, EPA does not believe that affected entities that acted in good faith relying upon the effective date stated in the April 25, 1996, **Federal Register** should be penalized if they were complying with the rule as promulgated.

II. Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a "significant regulatory action" and is therefore not subject to review by the Office of Management and Budget. In

addition, this action does not impose any enforceable duty or contain any unfunded mandate as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4), or require prior consultation with State officials as specified by Executive Order 12875 (58 FR 58093, October 28, 1993), or involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). Because this action is not subject to notice-and-comment requirements under the Administrative Procedure Act or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*). EPA's compliance with these statutes and Executive Orders for the underlying rule is discussed in the April 25, 1996, **Federal Register** document

Pursuant to 5 U.S.C. 801(a)(1)(A), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives and the Comptroller General of the General Accounting Office; however, in accordance with 5 U.S.C. 808(2), this rule is effective on February 9, 1998. This rule is not a "major rule" as defined in 5 U.S.C. 804(2).

This final rule only amends the effective date of the underlying rule; it does not amend any substantive requirements contained in the rule. Accordingly, to the extent it is available, judicial review is limited to the amended effective date.

Dated: January 30, 1998.

Technical Amendments to Clean Air Act Final Interim Approval of Operating Permits Programs; Delegation of Section 112 Standards; State of Massachusetts; Correction; Correction of Effective Date Under Congressional Review Act (CRA)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final interim approval correction; correction of effective date under CRA.

SUMMARY: On May 15, 1996, EPA promulgated interim approval of the 40 CFR part 70 Operating Permits Program for the Commonwealth of Massachusetts. That document correctly identified the effective date of the approval as May 15, 1996. The May 15, 1996, document also amended the text of 40 CFR part 70, Appendix A, to reflect the effective date of the interim approval; however, an incorrect date was added to Appendix A. On June 20, 1996 (61 FR 31442) EPA published a final rule amending 40 CFR part 70, Appendix A, to correct the effective date in Appendix A to May 15, 1996. This document corrects the effective date of the June 20, 1996, rule to February 9, 1998 to be consistent with sections 801 and 808 of the Congressional Review Act (CRA), enacted as part of the Small Business Regulatory Enforcement Fairness Act, 5 U.S.C. 801 and 808.

EFFECTIVE DATE: This rule is effective on February 9, 1998.

Technical Amendments to Bifenthrin; Pesticide Tolerance; Correction of Effective Date Under Congressional Review Act (CRA)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule; correction of effective date under CRA.

SUMMARY: On June 12, 1996 (61 FR 29676), the Environmental Protection Agency published in the **Federal Register** a final rule establishing a tolerance for residues of the pesticide bifenthrin in or on the raw agricultural commodity strawberries, which established an effective date of June 12, 1996. This document corrects the effective date of the rule to February 9, 1998 to be consistent with sections 801 and 808 of the Congressional Review Act (CRA), enacted as part of the Small Business Regulatory Enforcement Fairness Act, 5 U.S.C. 801 and 808.

Section 408(e)(2) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a(e)(2), provides that the

Administrator, before issuing a final rule under section 408(e)(1), shall issue a proposed rule and allow 60 days for public comment unless the Administrator for good cause finds that it would be in the public interest to provide a shorter period. EPA has determined that there is good cause for making today's rule final without prior proposal and opportunity for comment because EPA merely is correcting the effective date of the promulgated rule to be consistent with the congressional review requirements of the Congressional Review Act as a matter of law and has no discretion in this matter.
