Testing and Monitoring Protocol	February 26, 1998 .. May 1, 1998	Winston-Salem, NC. Fort Collins, CO.

The agendas for these meetings include review and revision of the ICCR databases, data and information gathering efforts, possible emission testing, and potential subcategorization. An opportunity will be provided at each meeting for the public to offer comments and address the Work Group.

Individuals interested in Coordinated Committee meetings, Work Group meetings, or any aspect of the ICCR for that matter, should access the TTN on a regular basis for information.

Two copies of the ICCR Coordinating Committee charter are filed with appropriate committees of Congress and the Library of Congress and are available upon request to the Docket (ask for item #B-1). The purpose of the ICCR Coordinating Committee is to assist EPA in the development of regulations to control emissions of air pollutants from industrial, commercial, and institutional combustion of fuels and non-hazardous solid wastes. The Coordinating Committee will attempt to develop recommendations for national emission standards for hazardous air pollutants (NESHAP) implementing section 112 and solid waste combustion regulations implementing section 129 of the Act, and may review and make recommendations for revising and developing new source performance standards (NSPS) under section 111 of the Act. The recommendations will cover boilers, process heaters, industrial/commercial and other incinerators, stationary internal combustion engines, and stationary combustion turbines.

Lists of Coordinating Committee and Work Group members are available from the TTN for the purpose of giving the public the opportunity to contact members to discuss concerns or information they would like to bring forward during the ICCR process.

It is anticipated that the next meeting of the Coordinating Committee, following the meeting in February, will be April 28-29, 1998 in Fort Collins, Colorado.

Dated: February 3, 1998.

Acting Assistant Administrator for Air and Radiation.
