#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Annual Retail Trade Survey (ARTS) provides a sound statistical basis for the formation of policy by other government agencies. It provides continuing and timely national statistics on retail trade augmenting the period between economic censuses, and is a continuation of similar retail trade surveys conducted each year since 1951 (except 1954). The data that the Bureau collects with the ARTS, annual sales, purchases, end-of-year inventories, and accounts receivables are applicable to a variety of public and business needs. The ARTS sample consists of all firms operating retail establishments within the U.S. whose probability of selection is determined by sales size that were used in the Monthly Retail Trade Survey (MRTS). An additional panel of cases, used only in the annual survey, are also canvassed. Estimates developed in the ARTS are used to benchmark the monthly sales and inventories series and the firms canvassed in this survey are not required to maintain additional records since carefully prepared estimates are acceptable if book figures are not available.

**SUPPLEMENTARY INFORMATION:****I. Abstract**

Opportunities to bid for contracts under the NATO Security Investment Program (NSIP) are only open to firms of member NATO countries. NSIP procedures for international competitive bidding (AC/4-D/2261) require that each NATO country certify that their respective firms are eligible to bid such contracts. This is done through the issuance of a "Declaration of Eligibility." The U.S. Department of Commerce/ITA is the executive agency responsible for certifying U.S. firms. ITA-4023P is the application form used by USDOC/ITA to collect information needed to ascertain the eligibility of a U.S. firm. ITA reviews the application for completeness and accuracy and determines a company's eligibility based on its financial viability, technical capability, and security clearances with the Department of Defense.
