Rulemaking Analysis and Notices

Executive Order 12866 (Regulatory Planning and Review), Department of Transportation (DOT) Regulatory Policies and Procedures, and Pub. L. 104–121

This procedural rulemaking is not considered to be an economically significant regulatory action under E.O. 12866, and is also not considered a major rule for purposes of Congressional review under Pub. L. 104–121. It is not considered to be a significant rule under DOT’s Regulatory Policies and Procedures (44 FR 11034; February 26, 1979). Accordingly, it has not been reviewed by the Office of Management and Budget. This rule merely conforms MARAD’s regulations at 46 CFR Part 221 to changes in statutory authority for MARAD’s administrative responsibilities for approving the foreign transfer of certain vessels and interests therein by removing restrictions in the regulations that may no longer be legally imposed. Accordingly, pursuant to provisions of the Administrative Procedure Act, 5 U.S.C. 553(c) and (d), MARAD finds that notice and public procedure are unnecessary and that this rule may become effective in less than 30 days after its publication.

Federalism

MARAD has analyzed this rulemaking in accordance with principles and criteria contained in E.O. 12612 and has determined that these regulations do not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Regulatory Flexibility

The Acting Maritime Administrator certifies that this rulemaking will not have a significant economic impact on a substantial number of small entities. Because fewer applications for approval will need to be filed, the affected public will save money.

Environmental Assessment

MARAD has concluded that this final rule will have no environmental impact and that an environmental impact statement is not required.

Paperwork Reduction Act

This rulemaking contains no new information collection requirements. This rule does not impose any unfunded mandates or requirements that will have an impact on the quality of the human environment.
