NUCLEAR REGULATORY COMMISSION

[Docket No. 030-20644; License No. 37-21428-01; EA 95-025]

Power Inspection, Inc., Wexford, PA; Order Imposing Civil Monetary Penalty

I

Power Inspection, Inc., (PI or Licensee) is the holder of NRC Materials License No. 37-21428-01 issued by the Nuclear Regulatory Commission (NRC

or Commission). The license authorizes the Licensee to possess sealed radioactive sources and to utilize those sources to conduct industrial radiography in accordance with the conditions specified therein. The license expired on January 31, 1994.

II

An NRC inspection of the Licensee's activities was conducted on December 2-3, 1993, and a subsequent NRC investigation was conducted from March 9 through December 22, 1994. The results of the inspection and investigation indicated that the Licensee had not conducted its activities in compliance with NRC requirements. A written Notice of Violation and Proposed Imposition of Civil Penalty (Notice) was served upon the Licensee by letter dated February 18, 1997. The Notice states the nature of the violations, the provisions of NRC requirements that the Licensee had violated, and the amount of the civil penalties proposed for the violations.

Two officers of the Licensee responded to the Notice in letters dated May 13, 1997, October 28, 1997, and January 6, 1998. The officers' responses did not deny the violations and proposed no reason for mitigating the civil penalties; rather, each officer maintained that he was not responsible for the violations and each officer proposed that the other officer should be held responsible for the violations and associated civil penalties.

III

After consideration of the Licensee's responses and the statements of fact, explanation, and arguments for liability of the civil penalties contained therein, the NRC staff has determined, as set forth in the Appendix to this Order, that the violations occurred as stated and that the penalties proposed for the violations designated in the Notice should be imposed.

IV

In view of the foregoing and pursuant to Section 234 of the Atomic Energy Act of 1954, as amended (Act), 42 U.S.C. 2282, and 10 CFR 2.205, it is hereby ordered that:

The Licensee pay a civil penalty in the amount of \$40,000 within 30 days of the date of this Order, by check, draft, money order, or electronic transfer, payable to the Treasurer of the United States and mailed to Mr. James Lieberman, Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852-2738.

V

The Licensee may request a hearing within 30 days of the date of this Order. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and include a statement of good cause for the extension. A request for a hearing should be clearly marked as a "Request for an Enforcement Hearing" and shall be addressed to the Director, Office of Enforcement, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, with a copy to the Commission's Document Control Desk, Washington, D.C. 20555. Copies also shall be sent to the Assistant General Counsel for Hearings and Enforcement at the same address and to the Regional Administrator, NRC Region I, 475 Allendale Road, King of Prussia, PA 19406-1415.

If a hearing is requested, the Commission will issue an Order designating the time and place of the hearing. If the Licensee fails to request a hearing within 30 days of the date of this Order (or if written approval of an extension of time in which to request a hearing has not been granted), the provisions of this Order shall be effective without further proceedings. If payment has not been made by that time, the matter may be referred to the Attorney General for collection.

In the event the Licensee requests a hearing as provided above, the issue to be considered at such hearing shall be:

- (a) Whether the Licensee was in violation of the Commission's requirements as set forth in the Notice referenced in Section II above; and
- (b) Whether, on the basis of the violations described in the NRC's Notice, this Order should be sustained.

Dated at Rockville, Maryland this 3rd day of February 1998.

For the Nuclear Regulatory Commission.

Ashok C. Thadani,

Acting Deputy Executive Director for Regulatory Effectiveness.
