

regulation of pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (7 U.S.C. 136 *et seq.*). FIFRA requires that all pesticides, including herbicides, be registered prior to distribution or sale, unless exempt by EPA regulation. In cases in which the genetically modified plants allow for a new use of an herbicide or involve a different use pattern for the herbicide, the EPA must approve the new or different use. In conducting such an approval, the EPA considers the possibility of adverse effects to human health and the environment from the use of this herbicide. The herbicide glufosinate is registered for use on corn in the United States. When the use of the herbicide on the genetically modified plant would result in an increase in the residues of the herbicide in a food or feed crop for which the herbicide is currently registered, or in new residues in a crop for which the herbicide is not currently registered, establishment of a new tolerance or a revision of the existing tolerance would be required. Residue tolerances for pesticides are established by the EPA under the Federal Food, Drug and Cosmetic Act (FFDCA) as amended (21 U.S.C. 301 *et seq.*), and the Food and Drug Administration (FDA) enforces tolerances set by the EPA under the FFDCA. The EPA has granted an exemption from the requirement of a tolerance for phosphinothricin acetyltransferase and the genetic material necessary for its production in corn and on all raw agricultural commodities.

The FDA published a statement of policy on foods derived from new plant varieties in the **Federal Register** on May 29, 1992 (57 FR 22984-23005). The FDA statement of policy includes a discussion of the FDA's authority for ensuring food safety under the FFDCA, and provides guidance to industry on the scientific considerations associated with the development of foods derived from new plant varieties, including those plants developed through the techniques of genetic engineering. Pioneer has begun consultation with FDA on the subject corn lines.

In accordance with § 340.6(d) of the regulations, we are publishing this notice to inform the public that APHIS will accept written comments regarding the Petition for Determination of Nonregulated Status from any interested person for a period of 60 days from the date of this notice. The petition and any comments received are available for public review, and copies of the petition may be ordered (see the **ADDRESSES** section of this notice).

After the comment period closes, APHIS will review the data submitted by the petitioner, all written comments received during the comment period, and any other relevant information. Based on the available information, APHIS will furnish a response to the petitioner, either approving the petition in whole or in part, or denying the petition. APHIS will then publish a notice in the **Federal Register** announcing the regulatory status of the Pioneer's male sterile and glufosinate-tolerant corn lines 676, 678, and 680, and the availability of APHIS' written decision.

### National Agricultural Statistics Service

#### Notice of Intent To Seek Approval To Conduct an Information Collection

**AGENCY:** National Agricultural Statistics Service, USDA.

**ACTION:** Notice and request for comments.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13) and Office of Management and Budget (OMB) regulations at 5 CFR Part 1320 (60 FR 44978, August 29, 1995), this notice announces the National Agricultural Statistics Service's (NASS) intention to request approval for a new information collection, the Beef Cattle Pesticide Use Survey.

**DATES:** Comments on this notice must be received by April 24, 1998 to be assured of consideration.

#### ADDITIONAL INFORMATION OR COMMENTS:

Contact Rich Allen, Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, 1400 Independence Avenue, SW, Room 4117 South Building, Washington, D.C. 20250-2000, (202) 720-4333.

#### SUPPLEMENTARY INFORMATION:

*Title:* Beef Cattle Pesticide Use Survey.

*Type of Request:* Intent to seek approval to conduct an information collection.

*Abstract:* Producers of beef cattle in 12 Western States will be surveyed. The survey asks for information about pesticides used to treat beef cattle to control external parasites, pesticides used in and around beef cattle facilities, and beef cattle pest management practices. Data collected will help provide quality information to fulfill certain requirements of the Food Quality Protection Act of 1996. The Environmental Protection Agency (EPA) must make regulatory decisions affecting many pesticide products. In order to do an effective risk assessment, accurate pesticide use information is essential. A Pesticide Benefit Assessments report will be produced by the United States Department of Agriculture (USDA). With the information, EPA and USDA together can evaluate the risks and the benefits of pesticide use. Presently, there is very little information on pesticides used on beef cattle.

These data will be collected under the authority of 7 U.S.C. 2204(a). Individually identifiable data collected under this authority are governed by

Section 1770 of the Food Security Act of 1985, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 30 minutes per response.

*Respondents:* Beef cattle producers in 12 Western States.

*Estimated Number of Respondents:* 2,000.

*Estimated Total Annual Burden on Respondents:* 1,000 hours.

Copies of this information collection and related instructions can be obtained without charge from Larry Gambrell, the Agency OMB Clearance Officer, at (202) 770-5778.

*Comments:* Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to: Larry Gambrell, Agency OMB Clearance Officer, U.S. Department of Agriculture, 1400 Independence Avenue, SW, Room 4162 South Building, Washington, D.C. 20250-2000.

All responses to this notice will be summarized and included in the request for OMB approval.

All comments will also become a matter of public record.

Signed at Washington, D.C., January 22, 1998.
