

January 5, 1998, on behalf of workers at Romla Ventilator Company, Gardena, California.

Petitioning workers were separated from the subject firm more than one year prior to the date of the petition. Section 223 of the Act specifies that no certification may apply to any worker whose last separation occurred more than one year before the date of the petition. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed in Washington, D.C. this 6th day of February, 1998.

Acting Director, Office of Trade Adjustment Assistance.

Russell Corporation, Cummings, GA; Montgomery Sewing Plant, Montgomery, AL; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance

The notice will be published soon in the **Federal Register**.

At the request of the petitioners, the Department reviewed the certification for workers of the subject firm. Snap-Tite, Incorporated, Quick Disconnect Division, Union City, PA; Notice of Termination of Certification

This notice terminates the Certification Regarding Eligibility to Apply For Worker Adjustment Assistance issued by the Department on March 25, 1997, for all workers of Snap-Tite, Incorporated, Quick Disconnect Division, Union City, Pennsylvania. Workers at the subject firm produce quick disconnect couplings. The notice was published in the **Federal Register** on May 2, 1997 (62 FR 24135).

In response to a request for reconsideration, filed by company representatives, on January 11, 1998, the Department issued a Notice of Affirmative Determination Regarding Application for Reconsideration. The notice will soon be published in the **Federal Register**.

The Department requested company data for sales, employment and imports through June 1997, which were not available at the time of the initial investigation. In accordance with data submitted by company officials in the initial determination, updated information shows that during the time period relevant to the investigation, sales and employment at the subject firm declined. Findings on reconsideration show that employment declines in 1996 were the result of a work stoppage. Other findings show that Snap-Tite increased import purchases of quick disconnect couplings from January-June 1995 through the January-June time periods of 1996 and 1997. The increase in import purchases, however, represented a negligible amount (less than one percent) of company sales in each year.

New findings on reconsideration of the certification shows that criterion (3) of Section 222 of the worker group eligibility requirements is not met. Increased company imports of quick disconnect couplings did not contribute importantly to worker separations.

Since new findings on reconsideration show that the criteria of the Trade Act are not met, the certification has been terminated.

Signed at Washington, DC, this 5th day of February 1998.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.
