The purpose of the meeting is for the Committee to receive a series of informational briefings on the status of a number of scientific topics of relevance to Safe Drinking Water Act (SDWA) implementation. Documents discussing some or all of these topics may be the subject of future formal reviews by the Science Advisory Board/Drinking Water Committee. Topics that the Committee will be briefed on include: (a) Complex mixtures and their implications to safe drinking water, (b) microbial/disinfection byproduct research and the Agency's plans for tracking research progress, (c) the EPA drinking water contaminant occurrence data base, and (d) the results of new drinking water epidemiology studies conducted in California.

For Further Information: Single copies of the background information for this review, or the meeting agenda, can be obtained by contacting Mr. Thomas O. Miller, Designated Federal Officer for the Drinking Water Committee, Science
