#### SUPPLEMENTARY INFORMATION:

*Title:* Annual Survey of Cooperative  
Involvement in International Markets.  
*Type of Request:* Information  
collection.

*Abstract:* The mission of the Rural  
Business-Cooperative Service (RBS),  
formerly Agricultural Cooperative  
Service (ACS), is to assist farmer-owned  
cooperatives in improving the economic  
well-being of their farmer-members.  
This is accomplished through a  
comprehensive program of research on  
structural, operational, and policy  
issues affecting cooperatives; technical  
advisory assistance to individual  
cooperatives and to groups of producers  
who wish to organize cooperatives; and  
development of educational and  
informational material. The authority to  
carry out RBS's mission is defined in  
the Cooperative Marketing Act of 1926  
(44 Stat. 802-1926). Authority and  
Duties of Division (7 U.S.C. 453).

(a) The division shall render service  
to associations of producers of  
agricultural products, and federations  
and subsidiaries thereof, engaged in the  
cooperative marketing of agricultural  
products including processing,  
warehousing, manufacturing, storage,  
the cooperative purchasing of farm  
supplies, credit, financing, insurance,  
and other cooperative activities.

(b) The division is authorized to:

(1) Acquire, analyze and disseminate  
economic, statistical, and historical  
information regarding the progress,  
organization, and business methods of  
cooperative associations in the United  
States and foreign countries.

(2) Conduct studies of the economic,  
legal, financial, social and other phases  
of cooperation, and publish the results  
thereof. Such studies shall include the  
analyses of the organization, operation,  
financial and merchandising problems  
of cooperative organizations.

(3) Make surveys and analyses if  
deemed advisable of the accounts and  
business practices of representative  
cooperative associations upon their  
request; to report to the association so  
surveyed the results thereof; and with  
the consent of the association so  
surveyed to publish summaries of the  
results of such surveys, together with  
similar facts, for the guidance of  
cooperative associations and for the  
purpose of assisting cooperative  
associations in developing methods of  
business and market analysis.

(4) Acquire from all available sources,  
information concerning crop prospects,

supply, demand, current receipts, exports, imports, and prices of agricultural products handled or marketed by cooperative associations, and to employ qualified commodity marketing specialists to summarize and analyze this information and disseminate the same among cooperative associations and others.”

RBS also has a stated objective to “assist U.S. farmer cooperatives to expand their participation in international trade of agricultural products and supplies and to review their progress.”

As trade agreements are implemented and domestic farm supports are reduced, a global presence is increasingly important to producers, their communities, and to job-creation and retention in agri- and food-related industries. Measurement and monitoring of cooperatives' global presence are stated objectives of RBS's International Trade Program. In order to carry out the agency's mission and objectives, RBS needs to collect information from the cooperative community. This information collection is designed to provide time-series data that will provide a better understanding of the opportunities and limitations of producer-owned cooperatives in global markets. The data provide the basis for research on trade-related issues affecting cooperatives, and background for trade-related policy analysis.

Beginning in 1980, RBS's predecessor agency Agricultural Cooperative Service (ACS) collected cooperative trade data at five year intervals. Value of cooperative exports by commodity and destination were measured, as well as information related to method of sale.

Values of imports by cooperatives, by commodity and country of origin were collected in 1986 and 1991. However, data collected at five-year intervals did not provide for meaningful analysis.

Further, previous collections were strictly limited to exports and imports, neglecting other important international arrangements such as strategic alliances and foreign direct investment. As a result, a more comprehensive, annual information collection has been developed to accomplish RBS objectives and paint a more accurate picture of cooperative involvement in international markets. These data are generally not available to RBS unless provided by the cooperatives.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average one (1) hour per response.

*Respondents:* Cooperatives involved in international activities.

*Estimated Number of Respondents:* 170.

*Estimated Number of Responses per Respondent:* one per year.

*Estimated Total Annual Burden on Respondents:* 170 hours.

Copies of this information collection can be obtained from Jean Mosley, Regulations and Paperwork Management Branch, at (202) 690-1587.
