#### SUPPLEMENTARY INFORMATION:

The Alaska National Interest Lands Conservation Act (NILCA) (16 U.S.C. 3101 et seq.) was signed into law on December 2, 1980. The broad purpose of this law is to provide for the disposition and use of a variety of federally owned lands in Alaska. Section 303 of ANILCA established Alaska Peninsula and Becharof National Wildlife Refuges. ANILCA states that the purposes for which Alaska Peninsula and Becharof Refuges were established and shall be managed include: to conserve fish and wildlife populations and habitats in their natural diversity; to fulfill the international treaty obligations of the United States with respect to fish and wildlife and their habitats; to provide the opportunity for continued subsistence uses by local residents; and to ensure water quality and necessary water quantity within the refuge.

The Alaska Peninsula comprehensive plan was completed in 1987. The Becharof comprehensive plan was completed in 1985. In 1988, draft and final supplemental environmental impact statements and records of decision were prepared for the Alaska Peninsula and Becharof comprehensive plans addressing their wilderness reviews.

In 1987, the Service decided to manage the Ugashik and Chignik units of Alaska Peninsula Refuge, the 5,800 acre Seal Cape area of Alaska Maritime Refuge, and Becharof Refuge as a "complex." These units share a contiguous boundary and common resources and resource issues. A public use management plan was prepared for the refuge complex and approved in 1994. All together, there are 12 documents that comprise the comprehensive plan for the refuge complex. The Pavlof Unit of the Alaska Peninsula Refuge is managed as part of the Izembek National Wildlife Refuge Complex and changes to its management will be addressed when that plan is revised.

Section 304(g) of ANILCA states that comprehensive conservation plans shall
