Termination of Classifications of Public Lands for Small Tract Classification Numbers 236, 243, and 388, and Opening Order; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: This notice terminates, in their entirety, the following three classifications, which classified public lands for disposition pursuant to the Small Tract Act of June 1, 1938: CACA 7291—Small Tract Classification

Number 236, CACA 7294—Small Tract Classification Number 243, CACA 7313—Small Tract Classification Number 388 The Small Tract Act of June 1, 1938 was repealed by the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701), which contained provisions providing broad authority that replaced the repealed act. Of the 1,000 acres described under the above described classifications, 774.375 acres have been conveyed out of public ownership pursuant to the Small Tract Act of June 1, 1938. The mineral estates of those conveyed lands were reserved to the United States. Until appropriate rules and regulations are issued by the Secretary of the Interior, the reserved minerals on the conveyed lands will not be subject to location under the U.S. mining laws. A total of 225.625 acres still remain in public ownership. Those lands will be opened to the operation of the public land laws including the mining laws, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. All of the lands have been and remain open to the operation of the mineral leasing laws. The terminations are necessary to facilitate the completion of a pending land exchange. The lands, remaining in public ownership, will be opened to exchange only, because they are currently segregated from the public land laws, including the mining laws, by the pending land exchange.

EFFECTIVE DATE: Termination of the classifications are effective on February 27, 1998. The public lands will be opened to entry at 10 a.m. on March 30, 1998.
