Notice of Intent To Prepare a Supplemental Environmental Impact Statement (SEIS) for the Disposal of Portions of the Former Homestead Air Force Base (AFB), Florida

The United States Air Force (Air Force) and the Federal Aviation Administration (FAA) will prepare an SEIS analyzing the proposed transfer of airfield and airfield-related properties at the former Homestead AFB. The SEIS will supplement the 1994 EIS titled Disposal and Reuse of Homestead Air Force Base, Florida. It will be used by the Air Force and the FAA in making decisions concerning the proposed disposal of the property. The Air Force and the FAA will be the lead agencies for preparing the SEIS. The National Park Service, the Fish and Wildlife Service, and the Environmental Protection Agency will be cooperating agencies.

The SEIS will address the potential environmental impacts of the disposal and reuse of surplus airfield facilities made available by the realignment of Homestead AFB pursuant to the Defense Base Closure and Realignment Act. The Air Force seeks to transfer the facilities in a manner that supports local plans for economic revitalization of South Florida and protects Biscayne Bay and the nearby national parks. The SEIS will address the proposed transfer of a one-runway airport and airport facilities at the former base. It also will address the potential environmental impacts of any reasonable disposal alternatives and include possible mitigation measures.

The scoping period for this SEIS formally begins with this Notice of Intent and will extend through April 30, 1998. The Air Force and FAA invite the participation of federal, state, and local agencies, any affected Indian tribal governments, organizations, and interested persons. Several public scoping meetings will be held at a time and location to be announced at a later
