

companies voluntarily report their sales to Japan. The information provided by the Data Collection Program (DCP) is used by the U.S. Government to calculate foreign market share in the Japanese semiconductor market to ensure access to the Japanese market gained under the 1986 and 1991 U.S.-Japan Semiconductor Arrangement continues under the 1996 Semiconductor Agreement.

II. Method of Collection

The Department of Commerce distributes Form ITA-4115P and the instruction manual to semiconductor companies after their eligibility is checked. The applicant completes the form and then forwards it to Price Waterhouse, who submits a summary report to the U.S. Department of Commerce/Office of Microelectronics for calculation of foreign (non-Japanese) share of the Japanese market.

Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

Agency: Bureau of the Census.

Title: American Community Survey

Group Quarters Screening Test.

Form Number(s): ACS-2(GQ).

Agency Approval Number: 0607-0836.

Type of Request: Revision of a currently approved collection.

Burden: 75 hours.

Number of Respondents: 450.

Avg Hours Per Response: 10 minutes.

Needs and Uses: Planning is currently underway for the 1998 American Community Survey (ACS). Data from the ACS will determine the feasibility of a continuous measurement system that provides socioeconomic data on a continual basis throughout the decade.

As part of 1998 ACS testing, a sample of Group Quarters (GQs) will be enumerated. GQs include places such as student dorms, correctional facilities, hospitals, nursing homes, shelters, and military quarters. The forms and procedures for all enumeration aspects of the 1998 ACS, including GQ enumeration, have been separately approved by OMB. The Census Bureau must also test its procedures for collecting screening information from GQ operators prior to the GQ enumeration begins. The screening operation, the subject of this request, will serve to update information we already have on-hand about the GQ and its residency, tell us if the GQ is within scope for ACS enumeration, and, most importantly, allow us to determine if a mail enumeration of the residents is possible. If a mail enumeration is not possible, face-to-face interviews with GQ residents will be necessary.

In this request, we are increasing the burden hours to accommodate for the ACS site expansion in 1998. We are also testing only one version of the screening form this year (as opposed to three in 1997). Other minor procedural changes have also been made.

Affected Public: Businesses or other for-profit, not-for-profit institutions, farms.

Frequency: One time.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13 U.S.C., Section 182.

OMB Desk Officer: Nancy Kirkendall, (202) 395-7313.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5327, 14th and Constitution Avenue, NW, Washington, DC 20230.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Nancy Kirkendall, OMB Desk Officer, room 10201, New Executive Office Building, Washington, DC 20503.

Agency: Bureau of the Census.

Title: Advance Monthly Retail Sales Survey.

Form Number(s): B-104.

Agency Approval Number: 0607-0104.

Type of Request: Revision of a currently approved collection.

Burden: 4,100 hours.

Number of Respondents: 4,100.

Avg Hours Per Response: 5 minutes.

Needs and Uses: The Bureau of the Census conducts the Advance Monthly Retail Sales Survey to collect monthly sales data from a national sample of retail establishments on a timely basis in order to provide an early indication of changes in current retail trade activity at the United States level. Data are collected monthly from small, medium, and large size businesses.

Policy makers such as the Federal Reserve Board need to have the most timely estimates in order to anticipate economic trends and act accordingly. The Bureau of the Census releases the

advance sales estimates 9 days after the end of the data month in a press release called "Advance Monthly Retail Sales Report." Without these early estimates, the next available measure of retail sales is the "preliminary" estimate released about 40 days after the data month.

The Bureau of Economic Analysis (BEA), the Council of Economic Advisors, and other government agencies and businesses use the data to formulate economic policy and make decisions. These estimates have a high BEA priority because of their timeliness. Other users of the advance sales estimates include the Council of Economic Advisors, Bureau of Economic Analysis, Federal Reserve Board, other government agencies, and businesses.

We are increasing the sample size from 3,363 to 4,100 to improve the quality of the data.

Affected Public: Businesses or other for-profit.

Frequency: Monthly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 182.

SUPPLEMENTARY INFORMATION:

I. Abstract

The Census Bureau plans to conduct the 1999 New York City Housing and Vacancy Survey (NYCHVS) under contract for the City of New York. The primary purpose of the survey is to measure the rental vacancy rate which is the primary factor in determining the continuation of rent control regulations. Other survey information is used by city and state agencies for planning purposes as well as the private sector for business decisions. The laws of New York require such a survey to be conducted every three years.

Information to be collected includes: Age, gender, race, hispanic origin, and relationship of all household members; employment status, education level, and income for persons aged 15 & above; owner/renter status (tenure) for all households, amount of rent paid, as well as kitchen and bathroom facilities availability, maintenance deficiencies, neighborhood suitability, and specific questions about each unit such as number of rooms and bedrooms. The survey also poses a number of items relating to handicapped accessibility. Finally, a shorter series of similar questions are asked for any units that are vacant. Note that all vacant units and approximately five percent of occupied units will be reinterviewed for quality assurance purposes.

II. Method of Collection

All information will be conducted by personal interview.

III. Data

OMB Number: 0607-0757 (expired 09/30/96)

Form Number: H-100, H-108(reinterview)

Type of Review: Regular

Affected Public: Households and businesses

Estimated Number of Respondents: 17,200 interviews; 2,000 reinterviews

Estimated Time Per Response: 40 minutes occupied (16,000); 10 minutes vacant (1,200); 10 minutes reinterview (2,000)

Estimated Total Annual Burden Hours: 11,200

Estimated Total Annual Cost: The only cost to respondents is that of their time.

Respondent's Obligation: Voluntary
Legal Authority: Local Emergency Housing Rent Control Act, Laws of New York (Chapters 8603 and 657)

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
