

resulting in an engine failure and a subsequent forced landing, accomplish the following:

(a) Remove any aluminum (blue-colored) AN823-8D (45°) or MS20822-8D (90°) elbows that connect the A723 oil cooler lines to the engine accessory case and replace them with airworthy MS20823-8 (45°) steel elbows or MS20822-8 (90°) steel elbows, as applicable. If the color is difficult to distinguish, use a magnet to determine if the elbow is aluminum or steel. Apply B270-6 thread sealant/lubricant to the replacement elbows' pipe threads. Torque the elbows to 160 in-lbs. plus as much additional torque as is necessary to align for correct position with the oil line.

Note 2: Robinson Helicopter Company R44 Service Bulletin SB-25, dated October 1, 1997, pertains to the subject of this AD and describes procedures for replacing both aluminum elbows with steel elbows.

(b) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Los Angeles Aircraft Certification Office. Operators shall submit their requests through an FAA Maintenance Inspector, who may concur or comment and then send it to the Manager, Los Angeles Aircraft Certification Office.

Note 3: Information concerning the existence of approved alternative methods of compliance with this AD, if any, may be obtained from the Los Angeles Aircraft Certification Office.

(c) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the helicopter to a location where the requirements of this AD can be accomplished.

(d) This amendment becomes effective on March 18, 1998.

Issued in Fort Worth, Texas, on February 24, 1998.

Eric Bries,

*Acting Manager, Rotorcraft Directorate,
Aircraft Certification Service.*

BILLING CODE 4910-13-P

DEPARTMENT OF COMMERCE

Bureau of the Census

15 CFR Part 70

[Docket No. 980209031-8031-01]

RIN 0607-AA18

Cutoff Dates for Recognition of Boundary Changes for Census 2000

AGENCY: Bureau of the Census, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of the Census is establishing the cutoff dates for recognition of boundary changes for

Census 2000. The cutoff dates are established for each decennial census of population and were last established for the 1990 census. For the tabulation and dissemination of data from Census 2000, the Bureau of the Census will recognize only those boundaries legally in effect on January 1, 2000, that have been reported officially to the Bureau of the Census no later than March 1, 2000.

EFFECTIVE DATE: March 3, 1998.

FOR FURTHER INFORMATION CONTACT: Joel L. Morrison, Chief, Geography Division, Bureau of the Census, Washington, DC 20233-7400, telephone (301) 457-1132, or e-mail (j.morrison@geo.census.gov).

SUPPLEMENTARY INFORMATION: The Bureau of the Census is amending 15 CFR Part 70 to establish cutoff dates for recognition of boundary changes for Census 2000. This technical amendment is necessary to change the dates that were established for the 1990 census on July 8, 1988 (51 FR 24653) and are out of date. The name of the census is changed from "1990 census" to "Census 2000", and the reference year is changed from 1990 to 2000 throughout the regulation. The Bureau of the Census will recognize only those boundaries legally in effect on January 1, 2000, that have been reported officially to it no later than March 1, 2000.

The Bureau of the Census finds good cause for dispensing with the notice and comment requirements of the Administrative Procedure Act because notice and comment are unnecessary so far as the public is concerned, since the rule makes merely technical amendments to update the dates from the 1990 census to Census 2000 (5 U.S.C. 553(b)(B)). A delay in the effective date is not required because this rule is not a substantive rule (5 U.S.C. 553(d)). Because a notice of proposed rulemaking and an opportunity for comment are not required for rulemaking under 5 U.S.C. 553 or any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable. This rule does not contain any collection of information subject to the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). It has been determined that this rule is not significant for purposes of Executive Order 12866.

List of Subjects in 15 CFR Part 70

Census data.

For the reasons set forth in the preamble, 15 CFR part 70 is amended to read as follows:

PART 70—[AMENDED]

1. The authority for part 70 is revised to read as follows:

Authority: 13 U.S.C. 4 and Department of Commerce Organization Order 35-2A (40 FR 42765).

2. In 15 CFR part 70, remove the words "1990 census" wherever they appear and add, in their place, the words "Census 2000".

3. In addition to the amendments set forth above in 15 CFR part 70, remove the date "1990" wherever it appears and add, in its place, the date "2000".

§ 70.2 [Amended]

4. In § 70.2, remove the sentence "A more complete description appears on pages A1 and A2 of 1980 Census of Population, Volume I, Chapter A" and add, in its place, the sentence "A more complete description appears on pages A-6 and A-11 of 1990 Census of Population, Volume 1, General Population Characteristics, 1990 CP-1-1, Appendix A."

Dated: February 10, 1998.

James F. Holmes,

Acting Director, Bureau of the Census.

Food and Drug Administration

21 CFR Part 558

New Animal Drugs for Use in Animal Feeds; Chlortetracycline, Bacitracin Methylene Disalicylate

AGENCY: Food and Drug Administration, HHS.

ACTION: Final rule.

SUMMARY: The Food and Drug Administration (FDA) is amending the animal drug regulations to reflect approval of an abbreviated new animal drug application (ANADA) filed by Hoffmann-La Roche, Inc. The ANADA provides for use of single ingredient Type A medicated articles containing chlortetracycline and bacitracin methylene disalicylate to make a Type C medicated swine feed.
