

**SUMMARY:** The Department of the Army announces today the availability of the Environmental Assessment (EA) and Finding of No Significant Impact (FNSI) for the realignment of Detroit Arsenal, Warren, Michigan, in accordance with the Defense Base Closure and Realignment Act of 1990, Pub. L. 101-510, as amended. The 1995 Defense Base Closure and Realignment Commission (BRAC) recommended the realignment of missions/functions from Detroit Army Tank Plant (DATP) on the east side of Detroit Arsenal to the west side of Detroit Arsenal.

The EA evaluates the environmental and socioeconomic effects associated with the proposed action and the alternatives. The proposed action is the relocation of personnel and functions from DATP on the east of Detroit Arsenal to the west side of Detroit Arsenal. Functions planned for the relocation within Detroit Arsenal would be combined with similar functions already present to achieve maximum efficiency. Due to a shortage of storage facilities to accommodate relocating and continuing functions the Army proposes to construct a 50,000-square-foot high-bay general-purpose warehouse on the west side of Detroit Arsenal. Upon disposal of DATP, Detroit Arsenal will consist of the western portion of the installation, plus Building 7 (research facility) and Building 8 (warehouse) located on the eastern portion.

Alternatives examined in the Final EA include renovation of existing facilities, construction of new facilities and the no action alternative. The Army's preferred alternative is implementation of the proposed action.

The EA, which is incorporated into the FNSI, examines potential impacts of the proposed action and alternatives on 15 resource areas and areas of environmental concern: land use, climate, air quality, water resources, geology, infrastructure, hazardous and toxic materials, permits and regulatory authorizations, biological resources, ecosystems, cultural resources, the sociological environment, economic development, quality of life and installation agreements.

The EA concludes that the implementation of the proposed action will not have a significant impact on the human environment. Issuance of a FNSI would be appropriate. An Environmental Impact Statement is not required prior to implementation of the proposed actions.

**DATES:** Comments must be submitted on or before April 3, 1998.

**ADDRESSES:** A copy of the EA or inquiries into the FNSI may be obtained
