**SUPPLEMENTARY INFORMATION:**

- I. Background
- II. Current Actions
- III. Request for Comments

**I. Background**

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. No. 93-275) and the Department of Energy Organization Act (Pub. L. No. 95-91), the Energy Information Administration (EIA) is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates,

assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

The EIA, as part of its continuing effort to reduce paperwork and respondent burden (required by the Paperwork Reduction Act of 1995 (Pub. L. 104-13)), conducts a presurvey consultation program to provide the general public and other Federal agencies with an opportunity to comment on proposed and/or continuing reporting forms. This program helps EIA to prepare data requests in the desired format, minimize reporting burden, develop clearly understandable reporting forms, and assess the impact of collection requirements on respondents. Also, EIA will later seek approval by the Office of Management and Budget (OMB) for the collections under Section 3507(h) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13, title 44, U.S.C. Chapter 35).

**II. Current Actions**

The EIA will request a three-year extension through August 31, 2001, to continue using Forms EIA-63A and EIA-63B. No substantive modifications to the currently approved forms will be proposed unless substantive suggestions are received and approved.

The forms currently are used to gather information on the supply and distribution of solar thermal collectors, photovoltaic cells, and photovoltaic modules. Specifically, the forms collect information on manufacturing, imports, exports, and shipments. The EIA has been collecting this information annually and proposes to continue the surveys. The data collected will be published in the Renewable Energy Annual and will also be available through EIA's Internet site at <http://www.eia.doe.gov/fuelrenewable.html>.

**III. Request for Comments**

Prospective respondents and other interested parties should comment on the actions discussed in item II. (If your comments apply to a specific form, please indicate one.) The following guidelines are provided to assist in the preparation of responses.

**General Issues**

A. Are the proposed collections of information necessary for the proper performance of the functions of the agency and does the information have
