SUPPLEMENTARY INFORMATION:

I. Abstract

The ITA-370P Form is necessary in order to implement the U.S. Special Textile Program with the Caribbean and Andean Trade Preference Act designated countries. The Special

Access Program was established to provide increased access to the United States market for textile products assembled abroad from fabric formed and cut in the United States.

Throughout the ITA-370P Form, the Committee for the Implementation of Textile Agreements (CITA) is provided with certifications that U.S. formed and cut fabric is being exported to a participating country, assembled into a finished product, and imported back into the United States.

II. Method of Data Collection

Form ITA-370 P is a three part document with pre-carboned copies. Each part of the document, the Shipper's Declaration, the Assembler's Declaration, and the Importer's Declaration, is in the form of a certification which must be completed and signed by participating companies.

The ITA-370P form and the information collected on it are used by CITA and the U.S. Customs Service to determine whether merchandise exported for a participant Caribbean country is properly certified to enter under the Special Access Program; and to conduct audits to determine whether U.S. formed and cut fabric was used to produce the final product.
