

equal transaction value as defined in applicable U.S. Customs Service regulations.

On July 31, 1997, the ALJ also issued Order No. 96 in the investigation finding that respondents and certain of their counsel have engaged in discovery abuses and abuse of process justifying the imposition of evidentiary and monetary sanctions. Pursuant to rule 210.25(d) of the Commission's Rules of Practice and Procedure, 19 C.F.R. § 210.25(d), the Commission on October 2, 1997, specified the schedule for the filing of petitions appealing Order No. 96 and responses thereto. On August 13, 1997, August 14, 1997, October 2, 1997, and November 6, 1997, respondents filed petitions appealing Order No. 96. Quickturn filed a reply to respondents' petitions on November 14, 1997. The Commission investigative attorneys filed a reply to respondents' petitions on November 17, 1997.

Having examined the record in this investigation, including Order No. 96, the petitions appealing Order No. 96, and the responses thereto, the Commission determined to deny the appeals and to adopt Order No. 96 with the exception of those portions of Order No. 96 granting Motion Docket No. 383-116 and Motion Docket No. 383-124, both of which the Commission did not adopt. The Commission also determined to deny respondents' request for a hearing and their motion for leave to file a reply to Quickturn's and the Commission investigative attorneys' responses to respondents' petitions. In connection with the final disposition of this matter, the Commission has ordered the presiding administrative law judge to issue an initial determination within six months ruling on the precise dollar amount of sanctions to be awarded pursuant to Order No. 96.

A Commission opinion in support of its determination will be issued shortly.

This action is taken under the authority of section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) and sections 210.4, 210.25, 210.27, and 210.33 of the Commission's Rules of Practice and Procedure (19 CFR 210.4, 210.25, 210.27, and 210.33).

Copies of the public versions of the Final ID, Order No. 96, and all other nonconfidential documents filed in connection with this investigation are or will be available for inspection during official business hours (8:45 a.m. to 5:15 p.m.) in the Office of the Secretary, U.S. International Trade Commission, 500 E Street, SW, Washington, D.C. 20436, telephone 202-205-2000. Hearing-impaired persons are advised that information can be obtained by contacting the Commission's TDD

terminal on 202-205-1810. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

Issued: March 6, 1998.

By order of the Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No.: 040-08980]

### Heritage Minerals, Incorporated License Renewal and Opportunity for Hearing

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of intent to approve renewal request for the Heritage Minerals, Inc. (HMI), facility located in Manchester Township, New Jersey, and opportunity for hearing.

The U.S. Nuclear Regulatory Commission (NRC) is considering approval of the renewal request for Source Material License No. SMB-1541, issued to Heritage Minerals, Inc. (HMI), to authorize decontamination and decommissioning activities of those areas of the licensee's Manchester Township, New Jersey site which require remediation prior to release for unrestricted use. The proposed licensing action also will authorize temporary storage of licensed material prior to disposition and be issued for a period of five years.

HMI is authorized by the NRC to perform within specific areas of its Manchester Township facility decontamination activities of licensed radioactive materials, and to possess, package, store, and transfer to authorized recipients monazite sands containing natural thorium. Residual radioactive contamination may also be present in some interior areas of the mill facilities on the site. There are no processing activities authorized by the license or by the proposed license renewal. The renewal is to promote timely decommissioning and remediation of the licensed material and associated monazite stockpile by HMI. Due to the lack of progress regarding disposition of the monazite pile from past operations, the NRC added this site to its Site Decommissioning Management Plan (SDMP) in 1990. The NRC established and implemented the SDMP to identify and resolve issues associated with the timely and effective cleanup of the sites on the list.

HMI ceased active operations in 1990 and maintained an active license until it expired on December 31, 1995. The licensee submitted a timely renewal
