BILLING CODE 4510-26-M

NATIONAL CREDIT UNION ADMINISTRATION

Sunshine Act Meeting

TIME AND DATE: 10:00 a.m., Thursday, March 19, 1998.

PLACE: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

STATUS: Open.

MATTERS TO BE CONSIDERED:

1. Request from Three (3) Federal Credit Unions to Convert to Community Charters.
2. Request from a Credit Union to Convert Insurance.
3. Request from a Corporate Federal Credit Union for a Field of Membership Amendment.
4. Request from a Corporate Federal Credit Union for a Wavier from Part 704 and a Field of Membership Amendment.
5. Final Amendments to Interpretive Ruling and Policy Statement (IRPS) 94-1, (Chartering Manual).
6. Final Rule: Amendments to Part 792, Subpart A, NCUA's Rules and Regulations, Procedures for Processing Freedom of Information Act Requests for NCUA Records.
7. Final Rule: Amendments to Part 723, NCUA's Rules and Regulations, Member Business Loans.

RECESS: 11:15 a.m.

TIME AND DATE: 11:30 a.m., Thursday, March 19, 1998.

PLACE: Board Room, 7th Floor, Room 7047, 1775 Duke Street, Alexandria, VA 22314-3428.

STATUS: Closed.

MATTERS TO BE CONSIDERED:

1. Three (3) Administrative Actions under Part 704 of NCUA's Rules and Regulations. Closed pursuant to exemption (8).
2. One Administrative Action under Part 741, NCUA's Rules and

Regulations. Closed pursuant to exemption (8).

3. Three (3) Personnel Actions. Closed pursuant to exemptions (2) and (6).

FOR FURTHER INFORMATION CONTACT: Becky Baker, Secretary of the Board, Telephone (703) 518-6304.

Becky Baker,

Secretary of the Board.

BILLING CODE 7535-01-M

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-298]

Nebraska Public Power District, Notice of Consideration of Issuance of Amendment to Facility Operating License and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering issuance of an amendment to Facility Operating License No. DPR-46, issued to the Nebraska Public Power District (NPPD or the licensee), for operation of the Cooper Nuclear Station (CNS), located in Nemaha County, Nebraska.

The proposed amendment, requested by the licensee in a letter dated March 27, 1997, would represent a full conversion from the current Technical Specifications (TS) to a set of TS based on NUREG-1433, "Standard Technical Specifications, General Electric Plants, BWR/4," Revision 1, dated April 1995. NUREG-1433 has been developed through working groups composed of both NRC staff members and industry representatives and has been endorsed by the staff as part of an industry-wide initiative to standardize and improve the TS. As part of this submittal, the licensee has applied the criteria contained in the Commission's "Final Policy Statement on Technical Specification Improvements for Nuclear Power Reactors (Final Policy Statement)," published in the **Federal Register** on July 22, 1993 (58 FR 39132), to the current CNS TS, and, using NUREG-1433 as a basis, developed a proposed set of improved TS for CNS. The criteria in the Final Policy Statement were subsequently added to 10 CFR 50.36, "Technical Specifications," in a rule change that was published in the **Federal Register** on July 19, 1995 (60 FR 36953) and became effective on August 18, 1995.

The licensee has categorized the proposed changes to the existing TS into four general groupings. These groupings are characterized as administrative changes, relocated changes, more

restrictive changes and less restrictive changes.

Administrative changes are those that involve restructuring, renumbering, rewording, interpretation and complex rearranging of requirements and other changes not affecting technical content or substantially revising an operating requirement. The reformatting, renumbering and rewording process reflects the attributes of NUREG-1433 and does not involve technical changes to the existing TS. The proposed changes include: (a) Providing the appropriate numbers, etc., for NUREG-1433 bracketed information (information that must be supplied on a plant specific basis, and which may change from plant to plant), (b) identifying plant-specific wording for system names, etc., and (c) changing NUREG-1433 section wording to conform to existing licensee practices. Such changes are administrative in nature and do not impact initiators of analyzed events or assumed mitigation of accident or transient events.

Relocated changes are those involving relocation of requirements and surveillances for structures, systems, components, or variables that do not meet the criteria for inclusion in TS. Relocated changes are those current TS requirements that do not satisfy or fall within any of the four criteria specified in the Commission's policy statement and may be relocated to appropriate licensee-controlled documents.

The licensee's application of the screening criteria is described in Volume 1 of its March 27, 1997, submittal, which is entitled, "Application of Selection Criteria to the Cooper Nuclear Station Technical Specifications." The affected structures, systems, components or variables are not assumed to be initiators of analyzed events and are not assumed to mitigate accident or transient events. The requirements and surveillances for these affected structures, systems, components, or variables will be relocated from the TS to administratively controlled documents such as the Updated Safety Analysis Report (USAR), the TS BASES, The Technical Requirements Manual (TRM), the Core Operating Limits Report (COLR), the Offsite Dose Assessment Manual (ODAM), the Inservice Testing (IST) Program, or other licensee-controlled documents. Changes made to these documents will be made pursuant to 10 CFR 50.59 or other appropriate control mechanisms. In addition the affected structures, systems, components, or variables are addressed in existing surveillance procedures that are also subject to 10 CFR 50.59. These
