

transportation system: waterways, the ports, and their intermodal connections:

- Currently, what elements work best in your region and why?
- Currently, what are the most significant problems in your region?
- What are the obstacles to resolving these problems?
- What is your vision of a marine transportation system that will accommodate the growing and competing demands of the future?
- What changes, additions, and types of assistance are needed to achieve your vision?

Format of Regional Listening Sessions

The first day of each regional listening session will be an open forum to receive views and opinions from the public concerning the current state and future needs of our waterways, ports and their intermodal connections. Persons wishing to make oral presentations should notify the person listed under **FOR FURTHER INFORMATION CONTACT** no later than the day before the meeting. Written material may be submitted before, during, or after the meeting. Speakers are encouraged to provide a written copy of their comments since time limits may be needed to accommodate all speakers, and summary notes will be made of oral comments.

The second day of each regional listening session will be a structured focus group format. A representative cross section from the region's ports, terminals, stevedores, pilots, vessel operators, railroads, truckers, environmental community, and others will be selected to provide expert views on the current state and future needs of our marine transportation system.

A summary of each regional listening will be placed in the public docket and will be available for public review and comment.
