

directives to create a "questioning attitude" for its workers to challenge management on nuclear safety issues without fear of harassment, intimidation, or reprisals by NU.

3. Refer the Nuclear Oversight Focus 98 List and the reported NU management attempt to destroy the list to the Department of Justice for investigation of a potential coverup.

As a basis for the Petitioners' request to revoke the Millstone licenses, the Petition states that an NU document (Nuclear Oversight's Focus 98 List dated January 11, 1998) directs the group to address areas needing improvement by focusing on the "inability to isolate cynics from the group culture" and "pockets of negativism." The Petition further states that the list demonstrates the sustained and unrelenting policy of NU's senior management to undermine a safety-conscious workplace at Millstone and that despite 2 years of increased regulatory scrutiny of the managerial mistreatment of its workers and the corporation's mismanagement of its employees' safety concerns program, a "chilled atmosphere" remains intact and entrenched.

As a basis for the Petitioners' request for a Department of Justice investigation, the Petition makes the following statement: "Since it has been reported that NU management employees attempted to destroy the list, NRC has a duty to refer this apparent deliberate attempt to evade the otherwise lawful exercise of authority by NRC to the Department of Justice for complete investigation. This alleged attempt to cover up wrong doing by NRC's licensee is a potential obstruction of justice that should be fully and fairly investigated."

The NRC staff is also concerned about the issues the Petitioners raised in their Petition. As a result, the staff issued a letter dated February 10, 1998, to the licensee requesting more information on this issue. The NRC staff will consider the licensee's response to the staff's request for additional information before the Commission allows restart of any Millstone unit. To this extent, the Petitioners' request for immediate action is partially granted. The Petitioners' specific requests to immediately revoke the operating licenses and refer the incident to the Department of Justice are denied because immediate action is not required to protect public health and safety while additional information is obtained from the licensee.

The issues in the Petition are being treated pursuant to 10 CFR 2.206 of the Commission's regulations and have been referred to the Director of the Office of Nuclear Reactor Regulation. As

provided by 10 CFR 2.206, appropriate action with regard to these issues will be taken in a reasonable time.

A copy of the Petition is available for inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the Learning Resources Center, Three Rivers Community-Technical College, 574 New London Turnpike, Norwich, Connecticut, and at the temporary local public document room located at the Waterford Library, ATTN: Vince Juliano, 49 Rope Ferry Road, Waterford, Connecticut.

Dated at Rockville, Maryland, this 11th day of March 1998.

For the Nuclear Regulatory Commission.

**RAILROAD RETIREMENT BOARD**

**Proposed Collection; Comment Request**

**SUMMARY:** In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

*Comments are invited on:* (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including

whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

*Title and purpose of information collection:* Certification Regarding Rights to Unemployment Benefits; OMB 3220-0079.

Under Section 4 of the Railroad Unemployment Insurance Act (RUIA), an employee who leaves work voluntarily is disqualified for unemployment benefits unless the employee left work for good cause and is not qualified for unemployment benefits under any other law. RRB Form UI-45, Claimant's Statement—Voluntary Leaving of Work, is used by the RRB to obtain additional information needed to investigate a claim for unemployment benefits when the claimant indicates on RRB Form UI-1, Application for Unemployment Benefits and Employment Service (OMB 3220-0022) that he has voluntarily left work. Completion of Form UI-45 is required to obtain or retain benefits. One response is received from each respondent.

RRB Form UI-45 is being revised to include language required by the Paperwork Reduction Act of 1995. Non burden-impacting reformatting and editorial changes are also being proposed. The completion time for the UI-45 is estimated at 15 minutes per response. The RRB estimates that approximately 2,900 responses are received annually.
