ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the May 5, 1995, and May 26, 1995, Illinois State Implementation Plan (SIP) revision requests regarding Synthetic Organic Chemical Manufacturing Industry reactor and distillation rules applicable to the Chicago and Metro-East ozone nonattainment areas. In the final rules section of this **Federal Register**, the EPA is approving the State's requests as a direct final rule without prior proposal because EPA views this action as noncontroversial and anticipates no adverse comments. Should the Agency receive such comment, it will publish a final rule informing the public that the direct final rule did not take effect and such public comment received will be addressed in a subsequent final rule based on this proposed rule. If no adverse written comments are received, the direct final rule will take effect on the date stated in that document and no further activity will be taken on this proposed rule. AGENCY: Environmental Protection Agency (USEPA).

ACTION: Proposed rule.

SUMMARY: USEPA is proposing to approve an August 1, 1997 requested revision to the Ohio State Implementation Plan (SIP) incorporating revised emission statement reporting requirements previously approved for the purpose of implementing an emissions statement program for stationary sources within the State's ozone nonattainment areas classified as marginal or above. In this action, USEPA is proposing to approve the State's finding that emission statement requirements are no longer applicable to areas redesignated as attaining the national ambient air quality standards for ozone. In the final rules section of this **Federal Register**, the USEPA is approving the State's requests as a direct final rule without prior proposal because USEPA views this action as noncontroversial and anticipates no adverse comments. A detailed rationale for approving the State's request is set forth in the direct final rule. This direct final rule will become effective without further notice unless USEPA receives relevant adverse written comment on the this proposed rule by April 22, 1998. Should USEPA receive such comment, it will publish a final rule informing the public that the direct final rule did not take effect and such public comment received will be addressed in a subsequent final rule based on the proposed rule.
