The amendment to 14 CFR part 71 modifies Class D airspace at Minot AFB, ND and Class E airspace at Minot, ND, to accommodate aircraft executing the ILS 1 or TACAN Runway 29 SIAP, the ILS/DME Runway 29 SIAP, and the TACAN Runway 11 SIAP, and IFR operations at Cooperstown Municipal Airport by increasing the radius and removing the extensions to the Class D airspace for Minot AFB, ND, and by increasing the radius and adding a northwest extension to that portion of the Minot, ND, Class E airspace associated with Minot AFB, ND.

**Effective Date:** 0901 UTC, June 18, 1998.

**For Further Information Contact:** Michele M. Behm, Air Traffic Division, Airspace Branch, AGL–520, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018, telephone (847) 294–7568.

**Supplementary Information:**

**History:** On Monday, December 22, 1997, the FAA proposed to amend 14 CFR part 71 to modify Class D airspace at Minot AFB, ND, and Class E airspace at Minot, ND (62 FR 66838). A recent joint FAA/Air Force review of the controlled airspace for Minot AFB revealed a need to reinstate controlled airspace inadvertently dropped during the 1993 United States airspace reclassification. This action was completed by Final Rule on November 5, 1997 (97–AGL–59, 62 FR 59783). Further review of the current instrument approach procedures for Minot AFB, including the ILS 1 or TACAN Runway 29 SIAP, the ILS/DME Runway 29 SIAP, and the TACAN Runway 11 SIAP, indicated the need to modify the existing controlled airspace. The proposal was to increase the radius and remove the extensions to the Class D airspace for Minot AFB, ND, and to increase the radius and add a northwest extension to that portion of the Minot, ND, Class E airspace associated with Minot AFB, ND to contain Instrument Flight Rules (IFR) operations in controlled airspace during portions of the terminal operation and while transiting between the enroute and terminal environments.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received. Class D airspace designations are published in paragraph 5000, and Class E airspace designations for airspace areas extending upward from 700 feet or more above the surface of the earth are published in paragraph 6005 FAA Order 7400.9E dated September 10, 1997, and effective September 16, 1997, which is incorporated by reference in 14 CFR 71.1. The Class D and Class E airspace designations listed in this document will be published subsequently in the Order.

**The Rule:**

This amendment to 14 CFR part 71 modifies Class D airspace at Minot AFB, ND and Class E airspace at Minot, ND, to accommodate aircraft executing the ILS 1 or TACAN Runway 29 SIAP, the ILS/DME Runway 29 SIAP, and the TACAN Runway 11 SIAP, and IFR operations at Cooperstown Municipal Airport by increasing the radius and removing the extensions to the Class D airspace for Minot AFB, ND, and by increasing the radius and adding a northwest extension to that portion of the Minot, ND, Class E airspace associated with Minot AFB, ND. The areas will be depicted on appropriate aeronautical charts.

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are
necessary to keep them operationally current. Therefore, this regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

**List of Subjects in 14 CFR Part 71**
Airspace, Incorporation by reference, Navigation (air).

**Adoption of the Amendment**
In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR Part 71 as follows:

**PART 71—DESIGNATION OF CLASS A, CLASS B, CLASS C, CLASS D, AND CLASS E AIRSPACE AREAS; AIRWAYS; ROUTES; AND REPORTING POINTS**

1. The authority citation for part 71 continues to read as follows:
   **Authority:** 49 U.S.C. 106(g), 40103, 40113, 40120; E.O. 10854, 24 FR 9565, 3 CFR, 1959±1963 Comp., p. 389.

   § 71.1 [Amended]
   2. The incorporation by reference in 14 CFR 71.1 of the Federal Aviation Administration Order 7400.9E, Airspace Designations and Reporting Points, dated September 10, 1997, and effective September 16, 1997, is amended as follows:
   
   Paragraph 5000 Class D Airspace
   * * * * *

   **AGL ND D** Minot AFB, ND [Revised]
   Minot AFB, ND
   (Lat. 48°24′56″ N, long. 101°21′28″ W)
   That airspace extending upward from the surface to and including 4,200 feet MSL and within a 5.3-mile radius of Minot AFB. This Class D airspace is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airport/Facility Directory. * * * * *
   
   Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.
   * * * * *

   **AGL ND E5** Minot, ND [Revised]
   Minot AFB, ND
   (Lat. 48°24′56″ N, long. 101°21′28″ W)
   Deering TACAN
   (Lat. 48°24′55″ N, long. 101°21′58″ W)
   Minot International Airport, ND
   (Lat. 48°15′34″ N, long. 101°16′52″ W)
   Minot VORTAC
   (Lat. 48°15′37″ N, long. 101°17′14″ W)
   That airspace extending upward from 700 feet above the surface within a 7.1-mile radius of Minot AFB and within 1.5 miles each side of the Deering TACAN 292 deg. radial extending from the 7.1-mile radius to 9.3 miles northwest of the airport and that airspace within a 7.0-mile radius of Minot International Airport and within 4.8 miles each side of the Minot VORTAC 138 deg. radial extending from the 7.0-mile radius to 12.1 miles southeast of the VORTAC and that airspace extending upward from 1,200 feet above the surface within a 47-mile radius of Minot AFB, excluding the area north of latitude 49 deg.00′00″ N.

**14 CFR Part 71**

[Airspace Docket No. 98–ANM–06]

**Amendment of Class E Airspace; Colorado Springs, CO**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Direct final rule; request for comments.

**SUMMARY:** This action changes the name of the VORTAC navigational aid in the Colorado Springs, CO, Class E3 airspace legal description from Colorado Springs VORTAC to Black Forest VORTAC. The name change for the VORTAC is for safety reasons and does not affect the existing boundaries of the airspace.

**DATES:** Effective 0901 UTC, June 18, 1998.

Comments for inclusion in the Rules Docket must be received on or before May 4, 1998.

**ADDRESSES:** Send comments regarding the rule in triplicate to: Manager, Airspace Branch, Air Traffic Division, ANM–520, Federal Aviation Administration, Docket Number 98–ANM–06, 1601 Lind Avenue S.W., Renton, Washington 98055–4056.

The official docket may be examined in the Office of the Regional Counsel for the Northwest Mountain Region at the same address. An informal docket may also be examined during normal business hours at the address listed above.

**FOR FURTHER INFORMATION CONTACT:** Dennis Ripley, ANM–520.6, Federal Aviation Administration, Docket No.
